

# JOHNSON IN ENTIRE CONTROL OF STATE REPUBLICAN CONCLAVE

## M. E. Examinations in Progress

### EPWORTH LEAGUERS WILL GREET BISHOP AT SUPPER TONIGHT

### TOMORROW WILL MARK ELECTION OF OFFICERS

The delegates to the Methodist Conference are arriving today by the hundreds. The examinations of the four years classes have been taking place, under the direction of Dean Healy, and Professor Tully C. Knoles of the University of Southern California.

The oldest visitor at the Conference is Rev. Dr. J. E. Higgins, a retired minister of Pasadena, who is 99 years old. The youngest man is Wesley V. Smith, pastor of the church at Chatsworth.

The Epworth Leagues of Fullerton, Orange, Anaheim, Garden Grove and Santa Ana will serve a dinner and bring greetings to the Bishop and visiting ministers tonight in the basement of the First Methodist church preceding the reception. Those who will represent their Leagues are Geo. Allen of Anaheim, Rebecca Burdick of Fullerton, Ruth Hull of Orange, B. F. Anderson of Garden Grove, and Donald Jones of Santa Ana. Professor Charles Deaver of the local high school will preside. The reception will be at 8 o'clock and is open to the public. Dr. Chas. E. Locke, pastor of the First Methodist Church of Los Angeles will be one of the speakers.

The Conference will open at 8:30 o'clock tomorrow morning with a communion service, after which the officers for the coming year will be elected.

The memorial service for the six members of the Conference who have died during the year will follow.

The ministers will be guests at luncheon tomorrow of the Santa Ana Ladies' Aid Society, at the First Methodist Church.

Tomorrow afternoon at 2:30 the anniversary of the Woman's Home Missionary Society will be in charge of Mrs. Silas Sprowls. Dr. Chas. Edward Locke will speak, and the Japanese work will be presented by Mrs. C. B. Dyson, with children in native costume. All of these sessions are open to the public.

### NOTED RABBI OF N. Y. BARRED FROM RUSSIA FOR PRO-GERMANISM

PETROGRAD, Sept. 19.—Dr. Judah Leon Magnes, noted New York rabbi is barred from Russia, not because he was a Jew, but because his public utterances classified him as a pro-German. Dr. Magnes was halted at Stockholm. He is now believed to be in Germany.

### REVENGE ON HEALTH OFFICIAL SOUGHT BY QUARANTINED KIDDIES

HOLLIDAYSBURG, Pa., Sept. 19.—Health officers Charles Curran are nursing two broken ribs today because he followed instructions to see that the infantile paralysis quarantine of movie houses was observed. Children barred from the shows put banana peelings on the walk at his house.

### BRIDE, 14, GROOM, 15, YOUNGEST PA. COUPLE, START HOUSEKEEPING

WAYNESBURG, Pa., Sept. 19.—Mr. and Mrs. George C. Brewer, 14 and 15, respectively, returned to this city and started housekeeping today with the distinction of being the youngest married couple in Pennsylvania. A long established friendship between the two families and a seemingly genuine love affair between the two children occasioned the ceremony.

### VITAL SOMME SECTOR CAPTAINED BY PAPIEN

BERLIN, Sept. 19.—Captain Franz von Papien, the recalled German military attaché at Washington, is realizing his ambition, expressed by him at the time of his departure, to "fight for the fatherland." Captain von Papien is the chief general staff officer of a division holding one of the most important sectors on the Somme front, and for weeks has been in the midst of the most terrific fighting.

### HERE'S WEDNESDAY CONCLAVE PROGRAM

8:30 a. m.—Communion Service.  
Organization; Memorial Service.  
12:15 p. m.—Lunch. The Conference the guests of Ladies' Aid Society, Santa Ana.

2:30 p. m.—Anniversary of the Woman's Home Missionary Society. Presiding Officer, Mrs. Silas Sprowls.

Address, Dr. Charles Edward Locke.

The Japanese work will be represented by Mrs. C. B. Dyson, with Japanese and Korean children in native costume.

7:00 p. m.—Session of Conference for the hearing of District Superintendents' Reports.

Los Angeles District, H. W. Peck; San Diego, A. Inwood; Pasadena, A. Ray Moore; Fresno, J. Oliver; Spanish and Portuguese, V. M. McCombs.

Music will be furnished by the Colored Choir of Wesley Chapel, Los Angeles, and an offering will be taken for Wesley Chapel.

### BULGARS HURLED BACK BY FOES IN SERBIA

BERLIN, Sept. 19.—The Germans have surrendered trenches to the British east of Ginchy, it was today officially admitted.

### ALLIES WITHER BULGARS IN SERBIA

LONDON, Sept. 19.—Allied troops have crossed the Serbian frontier in two places, advancing against the Bulgarian base of Monastir. The Serbians are fighting on their own soil for the first time since their retreat last winter. They crossed north of Lake Ostrovo. The French and Russians have entered Serbia at Kenele.

### LATINS-BULGARS LOCKED IN DEATH GRAPPLE

PARIS, Sept. 19.—A violent battle is progressing between the Italians and Bulgarians east of the Beles mountains. The Serbians repulsed two Bulgarian counter-attacks.

### BRITISH LUNGE HALTED BY DOWNPOUR

LONDON, Sept. 19.—A steady downpour of rain has halted the British offensive on the Somme. General Sir Douglas Haig today reported that the British have entered trenches of the enemy at Ribecourt Laboue in three separate places, taking prisoners.

### CHAMPAGNE RUSSIANS CRUSH TEUTONS

PARIS, Sept. 19.—The Germans, boldly attacking in the Champagne region, were repulsed by the Russian defenders, it was officially announced today.

### ALLY MINISTERS FAIL TO GREET CARSPANOS

ATHENS, Sept. 19.—Foreign Minister Carspanos today received congratulatory visits from all except the allied ministers.

### METHODISTS DEMAND THAT TUMULTY QUIT

WASHINGTON, Sept. 19.—"No man should be secretary to the President who is known to brewers, brewers' attorneys and beer politicians as 'Dear Joe'."

This opinion is expressed by the board of temperance of the Methodist Episcopal Church in a statement issued here, which demands the resignation of Joseph P. Tumulty. The statement accused Tumulty of being so prejudiced against prohibition that he has misused his position to assist the liquor trade in combating it.

Further: "Accredited leaders of the anti-liquor forces have been prevented from reaching the President with information that would have affected his actions."

### 'DRY' NOMINEES TO MAKE TALKS AT BIRCH PARK ON FRIDAY

Arrangements Completed For  
Addresses By Hanly and  
Landreth Here

When former Governor J. Frank Hanly of Indiana, candidate for President of the Prohibition ticket, and Dr. Ira Landreth of Tennessee, vice presidential candidate on the same ticket, and their party arrive in Santa Ana on their special train at 8:35 a. m. Friday morning they will be met by a delegation of local Prohibition party workers who will escort them to Birch park where addresses will be made, according to plans announced today.

A committee composed of Rev. S. W. Stone, chairman; Dr. A. T. Ishkarian, Prohibition party county organizer, and Rev. C. W. Griffin of the Church of the Nazarene will meet the Prohibition party's candidates at the Santa Fe station and see that automobiles are provided.

The Prohibition nominees will speak forty minutes at Birch Park, it is planned. When the allotted time is up they will be taken back to the station and proceed on their special train to Corona.

### 27 MONSTER ARMORED CATERPILLARS BOUGHT FOR USE OF U. S. ARMY

WASHINGTON, Sept. 19.—Twenty-seven caterpillar tractors similar to those converted into "land dreadnaught tanks" by the British in Northern France will soon be a part of the United States Army war paraphernalia, it was today announced.

The same firm in Peoria, Ill., which sold the British the monsters has sold Uncle Sam caterpillars of powerful design to be used in drawing heavy guns on the roads. They will be armored and equipped with machine guns for defense only.

### WOMAN SLAIN, COUPLE SERIOUSLY INJURED IN IOWA AUTO COLLISION

HOLSTEIN, Ia., Sept. 19.—Mrs. Barney Vanoy, wife of a farmer, was killed and Mr. and Mrs. John Buck of Schaller, Ia., seriously injured in a collision of automobiles here. Mrs. Vanoy was thrown from the car and her neck broken. The Bucks were pinned beneath their overturned machine.

### 'GREAT BEAR' CAPTAIN PRAISED BY BORDEN

SEATTLE, Sept. 19.—John Borden, the Chicago millionaire sportsman, who arrived from Nome, Alaska, where he was taken by the coast guard cutter McCulloch after his exploring schooner Grea Bear was wrecked in Bering Sea, said that he would begin arrangements immediately for another Arctic expedition next spring.

"Whenever I go I shall take Captain Louis Lane, who was master of the Grea Bear," he said. "The loss of the vessel in no way reflects on his ability as a mariner."

### NEW GERMAN MYSTERY RAIDER IS REPORTED

NORFOLK, Va., Sept. 19.—Foreign ships arriving at Newport News have reported to the British authorities that there is another German raider in the Atlantic. One told of sighting a vessel that started for her, but changed her mind when she saw smoke from what appeared to be a warship some distance away.

They also report that ships listed by Lloyd's as lost are believed to have fallen victims to this mysterious raider. The British authorities will give no details as to where the vessel was seen. Shipmasters are careful not to do so, as their commands would be endangered.

### 'DOUBLE' OF BILLINGS CALLED ON STAND AND SCORES FOR DEFENSE

SAN FRANCISCO, Sept. 19.—By calling the "double" of Warren K. Billings to the witness stand the defense today started many links in the prosecution's case. Al Decassia, a clerk, is the double. He testified that he and not Billings was seen on a roof just before the explosion of the bomb.

### DEPOSITS SHOW GAIN OF MORE THAN MILLION IN YEAR

Money More Plentiful, Easier  
Than For 2 Years; Crop  
Harvests Splendid

With the banks of the city showing an increase of better than \$1,000,000 in deposits over this date a year ago, and money more plentiful and easier than it has been for two years, this city approached the closing quarter of the year 1915 with every promise of an active, prosperous winter.

With good prices prevailing and good crops now being gathered in this immediate vicinity, the showing of deposits in the local banks should be even larger in the next few months than they are at the present time.

The borrower with good security can get money with ease—there is plenty of it to be had at from 6 to 7 per cent interest, and in some cases men with money to loan are known to have offered financial institutions their surplus at 5 per cent, if they would only take it.

"The present financial situation locally indicates prosperity here," said a banker today. "There should be extensive building operations during the winter, and I look for a revival of this line of operation."

### MUNITIONS CARS ARE SEIZED BY VILLA'S BAND

NEW LONDON, Sept. 19.—The American commissioners today agreed immediately to consider the question of withdrawal. The Mexicans pledged themselves to hunt Villa to the bitter end.

EL PASO, Sept. 19.—The Carranzistas have abandoned their chase of Villa, the "Fox of the Sierras," who escaped into the Santa Clara canyon with six automobile loads of ammunition, captured while attacking Chihuahua, and also with 1000 former Carranzista recruits.

Men and artillery have been reinforced at Juarez in fear of a Villista attack.

General Trevino, Carranza commander at Chihuahua City fears using his own men, who were recruited from Northern Mexico, against Villa, as they invariably desert to the band chief at the first opportunity.

### Attack Held Important

Military men do not underestimate the military importance of Villa's attack on Chihuahua. They pointed out that the city is the strongest military fortress in the north and that it was defended by heavy artillery and 7000 men.

Scores of civilians have arrived at Juarez with details of the fight. They said that only two non-combatants were injured. None of the Americans was disturbed.

Early in the fighting the Villistas herded all civilians who appeared in the streets into vacant buildings and kept them inside while the fighting was progressing.

### Steal Ammunition

Before beginning the retreating march the Villistas commandeered six motor trucks, backed them up to the arsenal and loaded them with ammunition. Then they marched out.

Most of the 1200 political prisoners in the penitentiary were released by Villa.

### GUARDSMEN FIGHT BIG TEXAS "BATTLE"

NEW BRAUNFELS, Texas, Sept. 19.—Fourteen thousand Guardsmen, engaged in an eighty-five-mile hike, today resumed their march despite the fact that they had just emerged from one of the most terrific "battles" ever fought on Texas soil. When 10,000 men under Brigadier General Henry A. Greene approached the town late yesterday they found it held by 4000 men under General Richardson. Artillery, machine gun and rifle fire halted Greene's forces. It was all part of a big war game.

### SIR CAVENDISH BOYLE IS DEAD IN LONDON

LONDON, Sept. 19.—Sir Cavendish Boyle, who was governor of Newfoundland, 1901-1904, is dead here today.

### Monster Death Auto Fleets Are Seen as "Tanks" Outgrowth

LONDON, Sept. 19.—The Times correspondent today predicts that huge land dreadnaughts will be the outgrowth of the present British "tank" motor batteries.

"In one short hour," the correspondent wired, "the tanks did more military damage and killed more Germans in uniform than all the Zeppelins ever did."

"It may be that before this war is over we and the Germans and their allies alike shall be building other monsters more huge and each more formidable, if possible, than the last until there will be battles between whole fleets made up of these dreadnaughts, or terrestrial monsters."

Only one of the "tanks" was destroyed during the Somme fighting, it is learned. In the center of the Bortaux wood where fierce fighting occurred, one of the monsters lies with its nose buried in the earth between the opposing lines and forming a barricade for both the British and Germans. How it was destroyed is not revealed in dispatches.

### JAILING OF SPEEDERS IS BRINGING FAME TO JUDGE COX

"Los Angeles, Cal., Sept. 18, 1916.

"Mr. T. E. Stephenson,

Santa Ana, Calif.

"My Dear Ted:—I am considering the purchase of a Flivver, etat Ford. Before expending my good simoleons I should like to be informed as to how far Judge Cox's territory extends.

"Personally I am fond of Orange county and the town of Santa Ana.

"If it is necessary to buy a mule instead of a Ford I should like to be advised.

"Yours respectfully,

"DEL REYNOLDS."

"P. S.—Hee Har!"

This gentle reference to the stand taken by J. B. Cox, chief justice of the high court of speed, brings to mind that Justice Cox's fame in Southern California is crowding Charlie Chaplin and Mary Pickford mighty close.

"Ten days in jail" rings in the ears of thousands of autoists as they suppress an inclination to "step on it."

It is a safe bet that since Moon went to jail, the speeders have been avoiding Orange county.

"What if they do?" asks Justice Cox. "They are a menace to life and limb, and we don't want them on our highways."

There are those, like Del Reynolds, who look on the jailing of speeders as a joke.

But for every letter written that pokes fun at the Justice, there are a dozen that say "Go to it, that's the stuff."

Cox has gotten a bundle of letters a foot thick from residents of Los Angeles and Long Beach, commending him for his stand, and declaring that the trouble with the speeding enforcement in those places is that speeders get off too easily. There are plenty of intimations that a man with a pull slips by without a fine.

There is plenty of evidence that for every man who avoids Orange county because he is liable to be arrested if he drives faster than the law allows, there are many more who select Orange county for a drive because they have it impressed upon them that speeding down this way is frowned upon. The average driver would rather drive where he knew the chances that a fifty-mile-an-hour machine would shave his fenders or wreck his brand new pet car were reduced to the minimum.

"The motorcycle officers tell me that this agitation is working good results," said Justice Cox. "They say that travel is more reasonable than it was, and arrests for speeding have decreased. I honestly believe that people who want to be fairly safe on the road."

### U. S. SEEKS TO BREAK ANTHRACITE MONOPOLY

WASHINGTON, Sept. 19.—Declaring that a Reading combination is the backbone of the alleged anthracite monopoly and that it controls about two-thirds of the anthracite despite that its supply will outlast that of any other producer, the government today filed a brief asking the separation of the Reading from allied companies.

### SENATOR LEWIS OPENS ILLINOIS CAMPAIGN

MINNESOTA, Sept. 19.—In a speech here, opening the Democratic campaign in Minnesota, Senator James Hamilton Lewis of Illinois arraigned "special interests" which, he said, were "trying to begot campaign issues with cries about Mexico and foreign relations in an endeavor to put over another Payne-Aldrich tariff."

### NEW HIGH MARK SET BY U. S. STEEL COMMON

NEW YORK, Sept. 19.—United States Steel Common set another new record price of \$109 a share on the stock exchange this afternoon.

highways will be attracted to Orange county."

Strange and fantastic notions are evolved concerning Justice Cox. Some of the automobilists imagine that he sits at his desk with a meat knife in his teeth, an automatic revolver in his right hand, with his pockets full of dynamite and his desk full of gun cotton and red pepper.

One of the Los Angeles papers pictured him as tickled to death with the capture of a representative of the idle rich. Some of them think the judge eats "em for breakfast, and that he is not half-way satisfied with his day's work unless he has petrified millionaires for supper.

"They seem to think I do all this for fun," declared Cox. "I am not sitting here as a joke or for the purpose of creating amusement for myself or sensations for the newspapers. I tell you that for over four years I have simple times for speeding. I found out that it did not work. It produced no results, except to add a little pin-money to the county treasury. If the public officials were here merely to gather in coin for the county, we would be mighty poor specimens to let live. The only way in the world that speeding can be stopped is to enforce the law by placing penalties where they mean an inconvenience to the person found guilty. What's a \$10 fine to a millionaire? What's a \$75 fine to the ordinary automobilist? Most of them count on being peeped for an occasional fine. But this thing of going to jail for ten days is different. It ought to accomplish results. If sending them to jail for going fifty miles an hour does not stop speeding, I'll send them to jail for going forty miles, I am satisfied that my course is right and honest, and if any of those speeders don't like my way of doing business it is because they expect special favors—may be used to special favors elsewhere—but, believe me, they won't get any special favors in my court."

There are some who are defiant. Justice Cox got a letter today signed "The P. O. W. Motor Club," and the sassy writer up and told Justice Cox that the club has a machine that can go between 80 and 100 miles an hour, and what was more the club was going to drive that machine through Santa Ana fifty miles an hour, just to show Justice Cox that they could do it and not be caught, by gum!

"We want to be chased by the motor squad," is written in red ink.

Hereafter whenever a motorist is brought before Justice Cox he may be asked: "Are you a member of the P. O. W. Motor Club?"

And if that question is answered in the affirmative, look out!

New York . . . . . 9 10 0

### L. A. MAN MAY BE HEAD OF INSURANCE BODY

ST. LOUIS, Sept. 19.—An army of delegates was gathered in St. Louis for the opening of the annual convention of the National Association of Life Underwriters at the Planters Hotel.

Convention gossip interested itself chiefly in forecasting the association's new president and the next place of meeting. New Orleans seems to have the call as convention city, while the name of John Newton Russell, Jr., of Los Angeles, chairman of the Executive committee, most prominently is mentioned for the presidency.

The Grand Old Party candidate was pleased to get back in harness. He started in with a smile at the crowd, greeting him at the station. He waved his hat with almost Rooseveltian glee at the applauders on the streets. In voice and gesture at the Coliseum he exhibited a full measure of pep.

### DEMOCRATS PLAN MORE NOISE FOR CAMPAIGN

WASHINGTON, Sept. 19.—There is to be more political noise at Shadow Lawn in the future.

The President, Vance McCormick and other political leaders today reached a decision from now on that the political horses will be spurred all the way of the remainder of the stretch.

Democratic leaders admit that their campaign for their standpoint has been lagging for the past week or so.

The first political speech will come on Wednesday when the President addresses the Businessmen's League at Trenton. Monday he will make an address at Baltimore.

### G. O. P. AND MOOSE DOMINATED BY GOVERNOR AS CONVENTIONS ARE OPENED

Five Parties Postpone Conclaves Until 2 O'Clock  
This Afternoon

### OPPOSITION TO STATE EXECUTIVE IS DOWNED

Nearly All 116 Delegates Of  
Republicans Arrive  
Before Noon

SACRAMENTO, Sept. 19.—Governor Hiram W. Johnson, it developed, would not only absolutely dominate the Republican state convention meeting here this afternoon but also the Progressives' meeting at the same time. Opposition to Gov. Johnson had been swept away over night. It was doubtful if more than a score of voices would be raised against the Governor's motion on administration.

The conventions of five parties, the Republican, Progressive, Democratic, Prohibition and Socialist, were to have met at 10 o'clock this morning, but were postponed until 2 p. m. in order to give additional time for party caucuses and lining up of delegates.

While nothing definite had been declared as to the chairmanship of the Republican convention, Frank H. Benson of San Jose would be chosen, it was expected, as from early morning he was in continual conference at the Governor's office.

G. O. P. Delegates Arrive  
Nearly all of the 116 qualified Republican delegates arrived before noon. John W. Stetson of Alameda and Percy V. Long of San Francisco, it developed, would control the state convention of Progressives.

"The Progressive party is to continue in California," said Long. A new State Central Committee was to be named and probably the convention, it was said, would follow the action of the National Committee and endorse Charles E. Hughes for President. It was not known early today what the plans were as there were but few delegates yet in the city.

A dark horse from California was to be chosen chairman of the Democratic convention, according to rumor. The delegates from the South arrived at noon.

Cushing Slated  
The Democratic slate called, it was said, for choosing C. H. Cushing of San Francisco for the chairmanship of the new State Central Committee. This committee was scheduled probably to be reduced from 250 to 200.

Geo. S. Patton, Democratic nominee for United States Senator, arrived from Chicago. He was slated to address the state convention this afternoon.

### HUGHES OPENS SECOND CAMPAIGN TOUR

PEORIA, Ill., Sept. 19.—Nominee Hughes chose Peoria as the city from which to hurl forth his first speech of his second presidential campaign tour. Today he spoke in a hall in which the State Republican Conference was meeting and in an hour's sermon on the nation's deeds and future, enunciated practically every one of his doctrines on Americanism, a protective tariff, adequate laws covering labor and fair treatment to legitimate business.

The Grand Old Party candidate was pleased to get back in harness. He started in with a smile at the crowd, greeting him at the station. He waved his hat with almost Rooseveltian glee at the applauders on the streets. In voice and gesture at the Coliseum he exhibited a full measure of pep.

### FOUR HELD IN GIANT BADGER GAME FREED

CHICAGO, Sept. 19.—Federal officers today admitted that four of those held in connection with the international blackmailing syndicate have been released through lack of evidence.

# VETERAN CROOK LIES HIS WAY INTO BRITISH ARMY. SHELL KILLS HIM

Ex-Convict In Forefront In Big Charge Against Germans

BY J. W. PEGLER  
(United Press Staff Correspondent)  
LONDON, Sept. 19.—An ex-convict, veteran inmate of British prisons, today is mourned by his regiment and Scotland Yard alike as one of England's war heroes. With a whole list of convictions behind his name, he lied his way into the army, won the Victoria Cross and finally made the great atonement during the Big Push. The story was told here today.

As a tribute to the burglar-hero the War Office is shielding his name, but Scotland Yard remembers him of old. His bunkies in France recall him as a hollow-cheeked man, slightly stooped, who took life and death as lightly as he did the prison sentences imposed from time to time by glowering judges. He had no relatives; his only friends, who took part in his forays against the law, are still in the game of cracking safes and evading arrest. Therefore his medal will become one of the treasures of a crack regiment of fighters.

**Freed as War Starts**  
The dead Tommy had just been released from prison when the war broke out. "Shaving water at nine," he said with a grin as the turnkey slammed the door behind him the night before his release. "I'm leaving early for the front."

"You'll be back again in a month," growled the case-hardened warden as he switched off the lights in the tier. But the convict shed his name and police record with the prison greys and eased by a lax recruiting officer, in a few months he was ankle deep in the icy slush of the trenches, sniping through a loophole and running-in with his officers for taking rash chances. He was used to taking chances and couldn't see why they didn't go over the parapet and mix it with the Germans.

**Opportunity Comes**  
At last his opportunity came. The battalion went over with a howl and the burglar-Tommy yelled with glee as he ran firing his rifle from the hip. In the excitement of the fight he became separated from the battalion. A few yards away a German machine gun crew in a pit was pouring death into the charging ranks. Tommy ran to the brink of the pit and killed the crew.

When the lines were re-formed he was first disciplined for disobeying orders—he shouldn't have gone astray—and then commended for his daring. Tommy merely smiled. Shortly later he received the V. C. and a furlough. The London police shook hands with him and bought him cigars.

**Shell Kills Him**  
Tommy went back to France and went over the parapets again in the Big Push. A big shell killed him. "He was a real enthusiast," said a detective who used to round up the dead hero in the old days. "He never went after a little job when we had dealings with him and he played the game to a finish in war."

## AMUSEMENTS

**At the West End**  
Cleo Ridgley and Wallace Reid, the brilliant Famous Players-Lasky stars, will be seen at the West End Theater tonight and tomorrow in "The House of the Golden Windows," from the story by L. V. Jefferson. It is a Paramount Picture.  
"The House of the Golden Windows" is founded on the old fairy tale of how two children living in a hut in the valley, see a beautiful house on the hill with golden windows. They decided to leave their own home, and struggled through the woods and brambles until they reached the top of the hill, and they find the big building to be nothing but a ramshackle old dwelling with the sunlight making the windows appear as if they were made of gold. When they look back down into the distance, they see that the golden windows are in their own home as well.

The modern version of this story is laid among the green fields of California and tells the story of Tom and Sue Wells struggling for riches, and how Sue goes in search of the house on the hill only to find that her own little shack has windows of gold.

**At the Temple**  
The girl worked in a 5- and 10-cent store for the magnificent wage of \$3 a week. Her mother took in washing to help support the family—consisting of two smaller children, and a lazy, good-for-nothing father. This man was too lazy to even look for work. He would leave home late in the forenoon and sit all day on park benches, reading dime novels. He spent his evenings and mornings lying in bed, reading novels, smoking his pipe and "rushing the can"—his wife and daughter providing the money.  
The girl needed shoes. The wrecks she wore were falling from her feet. To prevent picking up splinters from the rough boards on which she stood all day behind the counter, she protected the bottoms of her feet by inserting pasteboard insoles. Her evenings she spent with her feet in warm water to reduce the swelling and soothe her tired feet.

Each week she took her unopened pay-envelope home to her mother. Each week she was promised \$3 with which to buy new shoes. But there was always need for the money she earned to supply the family larder; to provide beer and tobacco for her

lazy father. Just how the half-slave shop girl finally succumbed to relentless fate and "sold out for a pair of shoes" is to be pictorially related in Bluebird Photoplays at the Temple Theater on Thursday and Friday in a great moral and sociological revelation entitled "Shoes."

There is a lesson in this feature for every father and mother who have made themselves responsible for the welfare of a daughter—it expounds the greatest problem ever essayed in moving pictures and does it deftly, cleanly and with gripping interest.  
Some good vaudeville features have been secured for the Temple's last half of the week bill. Bowen and Bowen have a comedy act and Shirley will have a musical act.

## 1764-TON STEAMER OF DANES IS DESTROYED

LONDON, Sept. 19.—A Lloyd's dispatch from Copenhagen announced that the Danish steamer Madvig, of 1764 tons gross, has been sunk. The crew was saved.

# ORIENTAL ART & WHITTALL RUGS

## WHITTALL RUGS

The Pride of the Manufacturer,  
The Pride of the Dealer,  
The Pride of the Owner

There must be some reason for their concerted opinion. And there is a reason.  
They are splendid rugs---the best made in America

Ask us to show them to you and to tell you why they are the best. Ask the people who are using them and have been using them for years with complete satisfaction.

They have all the beauty and charm of Oriental Floor Coverings and one of their chief beauties lies in the fact that they are quite within the limits of the moderate pocket-book.

The trademark woven into the back of every rug you want.

The Store With a Thousand Room Size Rugs

It will pay you to figure with us on your furniture purchases.

## \$162,000 IS PLUNDER IN MEXICO ROBBERIES

LAREDO, Tex., Sept. 19.—Bandits held up a passenger train September 12 near Tampopaso, rifled the express car of \$62,000 in gold, robbed the passengers and then pushed the train down the mountain side into a deep canyon, according to an apparently reliable report. The passengers were permitted to detain.  
On the following day a troop train sent out to apprehend the bandits was blown up at the same spot the hold-up occurred and forty soldiers killed. In a train holdup two weeks ago, near Gonzales, it was reported, bandits secured \$100,000 in American currency.

## COULD NOT DO HER COOKING

Mrs. F. E. Hartmeister, Tea, Mo., writes: "I was affected with kidney trouble for two years. I was so bad this summer I could hardly do my cooking. I got Foley Kidney Pills and they helped me. I feel like a new person." Too many women neglect symptoms of kidney derangement. When the kidneys are not properly doing their work poisons left in the system cause weak back, dizziness, puffiness under eyes, swollen ankles, joints and rheumatism. Rowley Drug Co.—Advertisement.

## SHERMAN ATTACK NOT JUST, SAYS GOMPERS

NEW YORK, Sept. 19.—United States Senator Sherman's challenge to debate was accepted by President Samuel Gompers of the American Federation of Labor, in a letter sent out by national unions. Mr. Gompers accused Senator Sherman of unjustly attacking him, stating that the whole Federation had been maligned.

## WOMEN USE COOKIES, CRULLERS, JELLIES AS MEANS TO GET VOTES

RIVERHEAD, L. I., Sept. 19.—"If it takes ten yards of scrambled eggs to make an overcoat for an elephant," one ingenious man once asked another, "how far would you have to drop a cranberry to break a shingle?" But the question here today is: "If it takes a quart of strawberry jam to make one suffragist in Binghamton, how many old Dutch crullers does it take to make a suffragist in Riverhead?" The answer will be given tonight by the suffragists making crullers to make male votes for women at the county fair here and their sisters slathering strawberry jam and jelly around to do the same thing up in Binghamton.

Automobile Robes on Sale at Gilbert's—200 robes, direct from the mills at mill prices, \$4.48, \$5.48, up to \$9.98. All wool robes at a big saving. See display in our show windows. Sale all this week at Gilbert's. Come today.

## CHURCH'S FIRST YEAR SPLENDID IN GROWTH

The Richland Avenue M. E. church at the service Sunday night had reports from the different departments as to the work done this conference year. This church was legally organized on October 24, 1915, with thirty-eight members. At the last conference the pastor, Rev. Fletcher G. Watson, was sent to take this new work. At that time there was no organization, salary or parsonage. The entire work is new.

this city closes the first year it is interesting to note the remarkable growth of this new church. It now has sixty-seven members, with large audiences.

It has eighty-four enrolled in Sunday school. During the year \$400 has been paid on the church debt. The Ladies' Aid Society has bought and paid for a piano costing \$150, and has paid for furniture to the value of \$150.

The church paid its pastor a salary of \$1000, which has been met in full, and has spent \$117 in Sunday school work, \$151 in church repairs, such as new walks, etc., and has given \$227 to missionary and other conference collections, making a total raised this year of almost \$1800 and comes to its first anniversary with all obligations met. This could not have been done without the aid and co-operation of the First M. E. church of this city.

Wanted—25 Young Ladies Wanted at Clune's Theater to appear in Fashion Show to wear latest gowns. Ask Mr. Lacey.

See our windows  
Announcement of  
Fall Displays

Styles in foot-wear for the season just breaking combine smartness and wearing comfort. To fully appreciate them you must see them.

A partial display may be seen in our windows. But we would deem it a privilege to show you others also.

### HILL & CARDEN

Clothiers.  
112 West Fourth St.

School Begins Monday  
Munsing wear union suits for boys of all ages at 50c up. The fit won't wash out.

## TO FIX WALNUT PRICE AT 15C AT LEAST, IS FORECAST

Local Association Board Will Attend Meeting In L. A. On Tomorrow

With the market cleaned up, a brisk demand, a crop shortage and nuts of an exceptional quality, it is expected the Southern California Walnut Association will agree tomorrow on a price for No. 1's ranging between 15 and 16 cents per pound. No new members will be accepted in local associations after the price is set. The price last year for the same grade was 13.40 cents per pound.

The boards of directors of all individual associations will be represented at the meeting in Los Angeles tomorrow. In some cases the full boards will be in attendance. A. J. McFadden, H. W. Lewis, A. C. Williams, A. C. Tiede and E. D. Burge, directors of the Santa Ana Valley Walnut Growers' Association, will attend.

According to O. H. Burke, secretary of the local association, the crop will not come up to the estimates made early in the season. The early estimates were 85 to 90 per cent of normal. Since the nuts have matured and harvesting has commenced the estimate has been reduced to 75 per cent of a normal crop.

The nuts are of a more uniform size than last season. There will be less Jumbos and No. 2's than last year, with a large increase in No. 1's. There is a higher percentage of true nuts than usual in the nuts that have been delivered at the local packing house. They are running from 95 to 97 per cent good. This is a splendid record.

Rolls Near Close  
Growers who want to join the association will have only a short time remaining in which to take membership. The roll will be open for this season only until such time as the secretaries are notified that the price has been set. This word may be received here tomorrow by noon, or it may be a little later.

On September 12 the California Almond Growers' Exchange quoted the trade higher prices than heretofore on account of the short crop. Twenty-four hours later the price was raised 1 cent a pound.

The shortage of the almond crop and the high price should have, it is stated, a bearing on the price of walnuts and walnut meats. While it is possible to get the price too high, it is said, it is more probable that the price will be fixed lower than the short crop, its quality, the market and other factors justify this year.

## CHARITY BOARD SUMMER WORK IS SHOWN

At the last regular monthly meeting of the board of directors of the Associated Charities there was reported a heavy record of work accomplished during August.

A total of 102 cases, of which eighty-three were family cases and nineteen were transient man cases, indicates the midsummer activities. Of the eighty-three family cases, twenty-two were Mexican families.

During the month there were forty-three visits of investigation or friendly calls paid by the secretary into the homes. There were nineteen cases presented to the Case Committee during the month and plans for action and policy were formulated concerning them.

Of the family cases receiving attention during August, seventeen were cases that were new, never having come up for consideration before; in eleven of the family cases, jobs were supplied, and thirteen families were supplied with clothing. Donations of potatoes were given to eight needy families. In co-operative work on cases, six cases were referred to the County Aid Commissioner; one case was referred to the Parole Board; two cases were referred to the County Hospital; one case was referred to the County District Attorney and three cases have been receiving co-operative attention between Los Angeles and Santa Ana.

There were fourteen grocery orders given out during the month, amounting to \$21.10; rent was paid in the case of one worthy family amounting to \$5; two pairs of blankets; four medical prescriptions and one truss were also given in material relief.

## U. S. FLIERS EN ROUTE TO BASE AT COLUMBUS

DOUGLAS, Ariz., Sept. 19.—Lieutenants Thomas Bowen and Carl Spates, who arrived in Douglas Friday from Columbus, N. M., on a trial flight, left here for their base at Columbus. The machine maneuvered over Douglas for half an hour and flew for a mile or two over Mexican territory before taking an eastward course. As a result, it was said in Agua Prieta, a protest might be filed with the American government for alleged violation of territorial rights of Mexico.

For Sale—Two cylinder flexible frame Indian motorcycle. Good order. \$85.00 cash Saturday or Sunday. Call at 202 Spurgeon Bldg., or Indian Shop, Phone 289 Pacific.

Orange County Business College.

## STUBBORN ELEPHANT CONQUERED BY GIRL

Fair Pachyderm Trainer With Barnum & Bailey Succeeded When Men Failed

It remained for a girl to subjugate the most stubborn elephant in America.

The girl's name is Arline Fuller and the obstreperous elephant is "Danger," one of the largest pachyderms in the herd of forty-one coming to Santa Ana on September 29 with the Barnum & Bailey circus. For the past eight years "Danger" has been the ring-leader in all mischief and rumpuses ever caused by the Barnum & Bailey elephants. Although not of a vicious disposition, he was not amenable to discipline and seemed to lack the natural affection which most every elephant lavishes on its keeper. In the language of Harry Mooney, the boss of the elephant herd, "Danger" could "eat all right and sleep all right, but he just simply couldn't and wouldn't work." He refused absolutely to perform in the rings and neither would he do any of the rough work on the circus lot, such as pushing the heavy cages from one spot to another. In the street parade he was always crowding his neighbors, so eventually he developed into an all-around, good-for-nothing beast, as far as the circus was concerned.

Then came his Nemesis in the form of pretty Miss Arline Fuller. The circus management decided, for the sake of novelty, to engage some women elephant trainers to work the three groups of performing animals in the rings. Miss Fuller was one of three girls whose previous experience with animals qualified her for the position. After several weeks of hard work at the winter quarters in Bridgeport, Conn., getting acquainted with her troupe of performing pachyderms and teaching them a series of new and difficult tricks, Miss Fuller's attention was attracted to "Danger." To her the beast's stubbornness was a direct challenge against law and order, and she had a conviction that she could conquer the elephant and make him her friend.

Being wise in the ways of mankind, Miss Fuller decided to appeal to "Danger" through his stomach. All elephants are passionately fond of bread and cakes, but they get very little of either. Accordingly, one morning Miss Fuller had "Danger" brought into the ring barn at winter quarters and attempted to make him perform some simple tricks. First, however, she fed him some morsels of spiced cake. The demurely appealed to "Danger" and he reluctantly went through his paces in the hope of receiving more cake. To the surprise of the veteran elephant trainers around the Barnum & Bailey quarters, within a few days Miss Fuller had old "Danger" literally crazy about spiced cake and her. He would obey her slightest command, and by the time the circus was ready to open its season he was one of the best performers in the herd. Always, however, he still receives his reward of cake after each performance. Also his propensity for trouble-making and mischief seems to have passed, and he is perfectly willing to do his share of the rough work, provided Miss Fuller is nearby to direct him. He will not tolerate any other trainer but her, and if she leaves him for any length of time he quickly degenerates into his old worthless ways.

For Long Beach take Crown Stages every hour

Capt. F. E. Kleinschmidt in the Trenches of Europe, tonight at Clune's.

"I Buy at Brown's Because They Have a National Cash Register."

says Mrs. Jones. "I deal there because they give me a printed receipt. At home I have a record of every purchase I've made at Brown's for several months back."

"They always hand me a receipt with printed figures of the amount of my purchase, and whether it was paid or charged. I keep these receipts so I can refer to them any time it is necessary."

"Each receipt also tells the date of the purchase and which clerk waited on me."

"You see, there's no possibility of Brown's collecting a bill for goods already paid for."

Get a Receipt.

## New Fall Silks

—Beautiful silks have been pouring in for a month, for we're expecting the biggest silk business this Fall of our history.

—NO WANT WILL BE LEFT UNSATISFIED—IN COLOR, OR KIND, AND ON DISPLAY THIS WEEK WE HAVE THE CHOICE OF THESE NEW THINGS. HERE ARE TWO POPULAR ITEMS FOR ALL:

Fall Plaids and Stripes, \$1.75, \$2, \$2.50

—For those dressy waists and dresses, plaids and stripes are highly approved.

—Plaids of rich, dark colorings, showing threads of silver, to lighten the somber appearance, are among the latest arrivals. Stripes are in evidence, some even Roman in their brightness, others more modest.

—Light stripes are new, white grounds, with stripes of fancy hues and rich Dresden patterns printed in the warp.

—Silks are too lovely and too expensive to buy without seeing the best in value, pattern and color.

—We offer the choicest selections from best lines in the country.

Chiffon Taffetas, \$1.25, \$1.50, \$1.75

—Beautiful Chiffon Taffetas, yard wide, rich in colors with the high sheen of good quality.

—We show full ranges of colors for street or evening wear, staple colors as well as approved Fall shades—Greens, Grays, Blues, Rose, Wistaria, Maize, Apricot, —these are a few of them.

—Three qualities, all 36 inches wide, priced at \$1.25, \$1.50 and \$1.75 per yard.

## Thursday Is The Day

## JUNIOR COLLEGE ROLL 44, GAIN OF 19 OVER LAST YEAR

English Composition Is Most Popular Study Course With Pupils

English composition proved the most popular course of study elected by entrants in the Junior College. It was shown at the close of enrollments yesterday. Forty-four pupils enrolled. Last year twenty-five entered at the beginning of the school term.

Next in popularity to composition are European history, psychology, botany and logic, in the order named. Following is a list of those who enrolled yesterday:

Isabel Anderson, Ruth Andrews, David Anderson, Donald Anderson, Maurine Baker, Lenore Batchelder, Ralph Beals, John Bruns, Ramona Clevering, Keith Davis, Holly Dale, Laura Davis, Hilda Gibbons, Richard Garstang, Elizabeth Givens, Edith M. Higgins, Esther Holbrook, Hattie Hutton, Marian Hutton, Maxwell Jayne, Maybelle King, Muriel Lee, Belle McDermott, Harry McVay, Dorothy Mead, Cammie Mitchell, Muriel Palmer, Cassie Pearson, Charlotte Ranney, Helen Robinette, Ulysses Schauer, Marjorie Shaw, Dorothy Skiles, Don Stevenson, Eleanor Sturgeon, Irene Swanner, Thelma Taylor, Esther Van Hynning, Helen Van Allman, John Wehrly, Mabel Wyseman, Eunice Zimmerman and two others.

## NEWS FROM CO. L

CAMP TANNER CANYON, Ariz., Sept. 15.—We have finished part of our big hike and all of Company L came in with flying colors. In all of the seventy-two miles that we hiked there was not a man from little Orange County that dropped by the roadside and there was only one other company in the Second and Seventh regiments that equaled this record. That was Company M of Riverside.

We have been camped beside each other ever since we went into camp at Sacramento and we have gotten to be pretty good pals.

One day while we were picking it along the road there was one company ahead of us that lost seven or eight men. We felt sorry for the poor

fellows, but we could not help kidding them a little.

The Second Regiment men thought that they could out-hike us, but they soon found that the old Seventh was always up and going. We showed the men from the northern part of the state that we could walk some.

There was only one place that the whole outfit had any trouble and that was only temporary. That was on the next to the last day's hike. We had a little longer to wait for water because there was but one pump to supply two regiments. We were tired from a twenty-mile jaunt and were thirsty and that is what made it seem longer anyway.

Some of the roads that we hiked over were fine and others were pretty rocky, which generally is pretty hard on shoes and also feet.

Our officers, Lieutenants Holderman and Ford, are both game men, meaning that they are good hikers. They took their places and kept them, thus setting a good example for their men. The men followed them, as they always will.

We have one "regular" hiker and that is our Top Sergeant Pease. The big fellow can sure step 'em off and there is no question about it. He has a good rival in Private Hoppa of the first squad. This fellow Hoppa has some stride himself.

There has been a special detail made up between Company L and Company M. Sergeant Gulick of Company M has to see that the moon comes up and he has been doing a right smart job of it, too, because it is up to Company L to push the sun up. We all hate to get up in the morning but some one of the company does his duty in getting the sun up.

After finishing the fourteen-mile hike to Elgin the other day Corporal Swanner, our Lieutenant-to-be, and "Bugs" Kubitz decided that they had not had enough hiking to do, so they struck out for the hills and before they returned to camp they had made about eight miles. That made them a pretty good hike for the day—twenty-two miles.

The men built little dams across the small creeks to get the water deep enough to take baths. Then the swimming is sure great if you don't care what you say, but a good deal better than nothing.

We have a fine place to camp for the short time that we will be in this neighborhood. It reminds us some of the Orange County Park, with all its oak trees.

F. H. MITCHELL.

## WOMAN, 55, HOSPITAL INMATE, LEAPS THREE STORIES TO DEATH

SAN FRANCISCO, Sept. 19.—From a window ledge on the third story of the city and county hospital Miss Clara Bowen, aged 55, jumped to her death on the concrete pavement below.

## SHUN RAW CLAMS, IS WARNING OF STATE

SACRAMENTO, Sept. 19.—"Don't eat raw clams," is the State Board of Health's warning to Californians today, as the result of half a dozen cases of typhoid fever that have been traced directly to the eating of clams in their natural condition. Clams are only safe when in chowder, Health Officer Sewer of the State Department of Health asserts.

### SIGNIFICANT COMMENT

The Christian Science Monitor, published in Boston, is everywhere recognized as one of the most ably edited newspapers in the world. In politics, the Monitor is Independent. It is never an advocate, but always fairly and impartially and intelligently enlightening. Thus the Monitor's comment on the result of the recent primary election in California becomes important and significant. It says:

It is probably no exaggeration to say that the victory achieved by Governor Hiram W. Johnson, Progressive, of California, in carrying the Republican nomination for United States Senator in the recent primary election by from 10,000 to 15,000 plurality, is a fact of national consequence. It appears, to the impartial observer, to mean that the Progressives have absorbed the Republicans in California, rather than that the Republicans have absorbed the Progressives. On the face of things, it seems to indicate that it is the progressive rather than the reactionary thought in the Republican party that is to control in the West, and that may eventually control all sections of the country. It appears to make clear that the revived Republican party is not to be a standpat but a progressive party, and that quite likely, and at no very distant day, Hiram W. Johnson of California may be its leader.

### PLANTS AND MEN

Plants do not think, yet without thinking they carry out very elaborate plans for getting food, for fertilizing themselves with the aid of bees and other insects, for guarding the seeds until the right moment, for scattering them, with the aid of the wind, water, birds and animals, and for insuring their germination. Some plants set traps of almost inconceivable ingenuity, depending on what would seem to the casual observer an absolute knowledge of bee psychology. Plants fit their environment just as well as men fit theirs, and, perhaps, somewhat better. The results that we get by taking thought they get in some other way, fully as mysterious as human thought, and possibly of as high an order in the great scheme of the universe.

A flower serves its purpose, which is to live and to propagate its kind, and man, biologically, can do no more. Fowers, wild or cultivated, probably grow more complex in their organization and functions as the ages pass; no less and no more can be said of men. Plants fight with their kind and with other forms of being for the gift of life, and so does man, although—as one is tempted to say—with less intelligence. The thought of these things quenches arrogance and gives the lie to pessimism. What are our petty doubts and sorrows? In us and in the humblest weed is the same indistinguishable life force, moving, whether purposeful or not, as though it had a purpose.—San Francisco Bulletin.

### FENCING OUT MEXICO

Cornelius Vanderbilt, a major on the division staff of the National Guard, has solved the problem of protecting our Mexican border.

There is about 2000 miles of trouble-some boundary. First he would build a good, permanent highway for that distance. Then, between the road and the river, and just south of the road where there is no river, he would build 2000 miles of barbed wire entanglements. Where it is necessary, he would stretch wires charged with a powerful electric current. Few marauding "Greasers" would get past the fence if they cut the electric wire, there would be an automatic signal bringing troops to repel them.

With such a highway and fence, 20,000 men could easily do the work that it takes 120,000 to do now. He would withdraw the regular army, and let the National Guard do the patrol work, in rotation, giving every Guardsman two months a year on border duty.

The road, he estimates, would cost \$20,000,000. The wire entanglements would cost \$4,000,000 a year. Allowing

\$1000 apiece for the expenses of maintaining the border guard, there would be an army expenditure of \$20,000,000. The total cost would be \$24,000,000 the first year, making a saving of about \$36,000,000. In two years the saving would be \$123,000,000.

If it's as simple and easy as that, why not do it?

### With Malice Toward None

By Henry James

Nothing in It

A Berlin writer says: The last German will face the last Briton if need be.

Sounds something like bragging, but this may be excused. The situation forecasted is not likely, nor is the attitude of the two survivors quite plausible. By the time the armies had been so seriously reduced that only a pair of fighters remained, surely they would have grown tired of the slaughter, and, neither holding a personal grudge, simply quit. Possibly they might strike up a partnership, and live happily ever after.

But there are complications that the Berlin writer does not seem to have had in mind. For instance, while the German and the Briton were in the act of facing each other and thinking the matter over, a Frenchman, or Russian, or an Italian, to say nothing of a possible Roumanian, might misconstrue the situation and pepper the German with fatal effect. Or else an Austrian, a Turk or Bulgarian, finding one load of slugs left in his blunderbuss, let the Briton have it. Really the future is too uncertain to speculate about.

Painting the Lily

Billy Sunday is reported to be converting Ocean Grove.

Converting it from what? Surely not the error of its ways, which Ocean Grove never would admit having.

Waiting

Now it is said that the war will be delayed until spring.

Meaning the spring of 1917?

The Antique Hen

Concerning a hen lately resident of a Connecticut barnyard, it is said bidden had lived sixteen years, contributed 3200 eggs to her environment, and passed away owing to natural processes.

However, it is doubtful that Yankee thrift would allow even the most worthy hen to pass the fifteenth milestone, so many apparently of this age being encountered by persons dependent upon restaurants for sustenance.

Breaking Treaties

Roumania is charged with having disgracefully broken treaties.

True enough probably. But look at the precedents that had been set.

Razors in the Trenches

French soldiers have been ordered to sharpen their blades and attack their own whiskers.

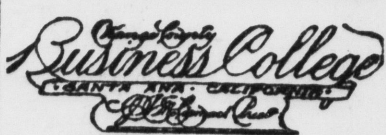

Perhaps it is not deemed a suitable show of valor for a soldier to cultivate a hedge and hide behind it.

O Well, All Right Then

In behalf of a chap whose most recent escapade was to rob a bank, his lawyer advances the plea of insanity. If this sticks, then the public owes an apology to every bandit it ever sent to jail.

Clothing the Twins

Somebody has written to a paper to ask if twins should be dressed alike. No hard and fast rule could be formulated for this emergency. Sometimes when twins are dressed alike not even distinguished by different colored ribbons, confusion arises in the household, involving the possibility that

### CLUB WIELDERS OF LOCAL FAME IN STATE CONTESTS

Some of Orange county's crack golf players will participate in the state meet to be held at Del Monte, which opens Saturday and will continue for a week. Five men members of the Orange County Golf Club will be in attendance, and will meet up with the best players of the state. They are expected to hold their own against the best and their local admirers are anticipating fine reports from them.

Lee Collins, W. K. Parkinson and Howard Thurston of Newport Beach left yesterday for the scene of golf activities which will attract attention in all parts of the state. F. B. Browning of Tustin, and A. C. Twist of this city will leave for the North tomorrow.

Capt. F. E. Kleinschmidt in the Trenches of Europe, tonight at Clune's.

### President Ripley states Santa Fe's position on eight-hour wage law and asks an important question.

The Atchison, Topeka and Santa Fe Railway Co.

Chicago, Ill., September 8, 1916.

To Santa Fe Employees and the Public:

This is the position of The Atchison, Topeka & Santa Fe Railway Company regarding the controversy with its train-service employees over their demand for increased compensation:

Congress, hastily acting under a threat of four leaders of labor organizations, enacted a so-called eight-hour law, which is nothing more nor less than an advance of twenty to twenty-five per cent in the wages of the best paid men in railway service.

It is only fair to our employees and the public to say that The Atchison Topeka & Santa Fe Railway Company does not intend to comply with the law except as and when ordered to do so by the court of last resort.

The merits of the case have been fully explained in the last few months and need no further mention.

Should the courts finally decide that the increase must be paid, there will be an immediate demand from the remaining classes of labor, resulting in entire inability to pay without heavy increases in rates to be paid by the public—especially the farming class.

IS THE PUBLIC PREPARED TO MEET THE DEMAND?  
This notice is for the information of all concerned.

E. P. RIPLEY, President.

# Doings In Social and Club Circles

## FIRST TRAVELERS MEET

Year's Work of Ebell Class Begins Auspiciously With Large Attendance

One of the first classes of the Ebell Society to begin its year's work, was the First Section of the Travel Club, which held its initial meeting at the hospitable home of Mrs. Stephen Ross on South Main street. The members greatly admired the beautiful pink La France roses occupying large bowls, these blossoms being rather unusual at this time of the year.

A very interesting article on "The American Hyperboreans," from this month's Sunset Magazine, was read and enjoyed and many amusing and interesting vacation experiences were told by the members.

Mrs. Ross served appetizing refreshments before the members took their departure. The next meeting was announced to be held with Mrs. John L. Dwyer.

The members present were Meses. A. W. Ames, J. W. Bishop, J. P. Baumgartner, L. J. Carden, J. L. Dryer, H. C. Daves, M. F. Heathman, C. S. Kendall, I. W. Van Cleave, W. M. Smart, J. E. Stephenson, L. L. Shaw, E. B. Smith, W. L. Tubbs and Miss Mary Catter of Los Angeles.

## Ladies' Aid Picnic

Saturday, September 30, is the day set for the Ladies' Aid picnic, which has been under discussion by various members of the different societies. To avoid delay it has been thought best to make the announcement through the papers, without waiting to have the matter brought up and voted upon in each society.

It has been suggested that each lady wear, as a badge, a card bearing her name and the name of her church in the manner of the County Club Federation here last spring.

The presidents, vice-presidents and secretaries of all the Ladies' Aids will act as hostesses and reception and social committees.

It is hoped that not only the officers but every member of every Ladies' Aid Society in Santa Ana by whatever name known, will not only plan to go, but will help work up interest in the matter and see to it that at this, our first Ladies' Aid get-together picnic, we have a large attendance and a good time.

The picnic will be perfectly informal, no business of any kind, nothing but a picnic dinner and a chance to make new acquaintances and renew old ones.

The place decided upon is Balboa. Other necessary details will be given later. This much too early is given to set the ball rolling.

## Ladies' Aid Meeting

The Ladies' Aid Society of the First Presbyterian Church will meet Wednesday, September 20, in the church parlors. A large attendance is desired, as this will be the first meeting of the year.

## CELEBRATED BIRTHDAY

Mrs. Grace Schellhaus Hostess At Dinner to Celebrate Son's Birthday

Mrs. Grace Schellhaus planned and carried out a very pleasant affair on Sunday last in celebration of the birthday of her son, J. E. Foss. A delicious chicken dinner was served at noon, the table being centered with a cluster of snow white daisies.

The afternoon hours were enjoyably spent listening to phonograph music and violin numbers rendered by J. Eckhardt. Twenty guests were in attendance and Mr. Foss received many congratulations and good wishes for many more happy and prosperous years.

Those attending were Mr. and Mrs. G. E. Law and family, Mr. and Mrs. Julius Eckhardt and family, Mrs. Grace Schellhaus, Mr. and Mrs. Charles Howe, and nieces, Lona and Victoria Howe, of Los Angeles.

## SURPRISE SHOWER

Mr. and Mrs. William White, Popular Newly Weds, Are Given Kitchen Shower

One of the recent pleasant social events was a surprise kitchen shower for Mr. and Mrs. William White, wedded a few days ago, at their attractive home at 1039 West Second street. The surprising party was provided with pink carnations, roses and ferns, with which the rooms were decorated and the time was happily passed with music and jolly conversation.

Mr. and Mrs. White were asked to uncover a big basket and within they found appreciated gifts of all sorts for use in the kitchen.

Tempting refreshments were served before the company departed, leaving many good wishes for the happiness of Mr. and Mrs. White.

The company included Mr. and Mrs. L. B. Babbit, Evelyn and Worth Babbit, Misses Margaret Seburn, Elma George, Gertrude Carnahan, Edna Sherwood, Helen White, Florence Miller, Gladys Howell, Dorothy White, Messrs. Roy Osborn, Charlton Waters, Harold Carnahan, Carl Kaufmann and Hubert Tooman.

## Missionary Society Meeting

The missionary society of the First Congregational church will open its year's work on Wednesday, September 20, at 2:30 p. m., at the home of Mrs. W. W. Simon, 512 Orange avenue. A splendid program is prepared.

Mrs. James H. Lash of Pasadena, the district president, will deliver an address, and a large attendance is desired.

Every boy and girl should see the War Pictures at Clune's today, 5 cents.

Orange County Business College.

## WORLD WIDE GUILD

Pleasant Hike to Tustin, Supper and Meeting Feature Enjoyable Evening

The World Wide Guild of the First Baptist Church enjoyed a very pleasant hike to Tustin last evening, where the members gathered at the home of Mr. and Mrs. I. L. Marchant. The young women left here about 5 o'clock and heartily enjoyed the walk in the lovely evening air.

Upon arriving at the hospitable home of the Marchants, an inviting supper was partaken of, music being rendered before the meal was announced.

A business meeting was held, at which home missionary work was discussed and Mr. Marchant drove the members home in his automobile.

Those participating in the pleasures of the evening were Miss Emily Cox, leader; Misses Kathleen Owens, Elizabeth Shepherd, Esther Holbrook, Vivian Newman, Mildred Holmes, Harriet Owens, Virginia Russell, Mildred Marchant and Mr. and Mrs. Marchant.

## Musical for Singer

Mr. and Mrs. J. Willard Edger of No. 1340 West Twenty-ninth street, Los Angeles, entertained on a recent evening with a musicale in honor of Mrs. W. D. Budrow of 1119 Spurgeon street, this city. Mrs. Budrow gave a program of Spanish and Italian songs, in the rendition of which she excels. She included two of her own pleasing compositions. She was assisted by Miss Mary Elizabeth Martin, pianist and co-author with Frank H. Coby in the "California Garden" song cycle.

Mrs. Budrow, who is a charming little woman with the liquid accent of the dons, has been invited to sing before a number of Los Angeles clubs this winter.

Mrs. Josephine Chapman Johnston, composer of the charming little song, "Conchita," has asked Mrs. Budrow to present it at its first rendition and to her, Miss Mary Elizabeth Martin has dedicated a beautiful song entitled "The Spanish Nightingale." Both of the songs are written in English.

## Trip to Balboa

Rev. Rufus S. Chase took the choir boys of the Church of the Messiah for a day's outing to Balboa today. The party made the trip on bicycles.

## Missionary to Speak

Dr. Kate McBurney, a missionary from China, home on furlough, will give an address at the Reformed Presbyterian Church, corner West First and Spurgeon streets, Wednesday at 7:30 p. m. The "Progress of Work in China" will be the subject.

## DANCING CLASSES

Miss Helena F. Browning will form adult beginners' classes at Elks' Club, Friday evening, October 6, at 7 p. m.; advanced, 8:30 p. m.; juvenile class at 4 p. m.

Ladies' and Gents' fur nap and beaver hats cleaned and re-shaped fall styles, like new.

## JACK CARLISLE

Opera House, Up Stairs

Automobile Robes on Sale at Gilbert's—200 robes direct from the mills at mill prices, \$4.48, \$5.48, up to \$9.98. All wool robes at a big saving. See display in our show windows. Sale all this week at Gilbert's. Come today.

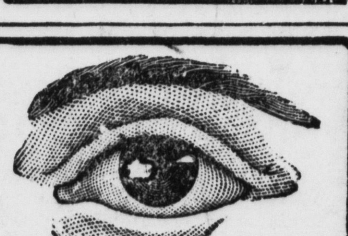

OUR JITNEY OFFER—This and 5c —DON'T MISS THIS. Cut out this slip, enclose with 5c and mail it to Foley & Co., Chicago, Ill., writing your name and address clearly. ## Personals

F. G. Robbins of Long Beach was the guest today of his uncle, J. C. Gilbank.

Mr. and Mrs. A. J. Padgham went down to San Diego today to remain two or three days. They will attend the exposition today and tomorrow Mrs. Padgham will attend a meeting of officers of the Federation of Women's Clubs. She is chairman of the Music committee.

Miss Annette McClintock is spending a few days at San Diego, having joined a party of Los Angeles friends there today.

Mrs. Stella B. Vale, who has been a guest at the home of her parents, Mr. and Mrs. J. D. Price, at Garden Grove, returned today to her home in El Centro.

Mrs. C. E. French and Miss Ethel French spent the day at Riverside.

Mrs. C. F. Spellmeyer and little daughter returned yesterday from a three months' visit with relatives in Colorado and Nebraska.

V. W. Whitson was a morning passenger to Los Angeles.

Dr. H. M. Robertson was an out-of-town P. E. passenger this morning.

Mrs. Bertha Conner, society matron of San Diego, who has been dividing her time between Santa Ana and the Virginia County Club at Long Beach this week, will leave Wednesday for San Diego, where she will open her beautiful home for the winter. She is an ardent golfer and has been often seen at the Country Club.

Mr. and Mrs. E. V. S. Pomeroy and children have returned from a six-weeks' recreation trip at Keene Camp.

The C. G. Twists, who have been spending a vacation season at La Jolla, are returning to their home, 1520 North Main street, today or tomorrow.

Mr. and Mrs. L. H. Shute departed yesterday for their home in Denver, Colo. Mr. Shute is a brother of Mrs. A. B. Watson, whose guests he and his wife have been.

Miss Eunice Whipple will spend the winter with her sister, Miss Mary Whipple. She is a graduate of the Oberlin, Iowa, Conservatory of Music.

Prof. and Mrs. B. F. Beswick have moved to Tustin, where Mr. Beswick will be principal of the school there.

Misses Maude and Jeannette Wherry are at home from their eastern vacation trip. Miss Maude Wherry is one of the faculty at Intermediate School.

Mrs. George Armstrong of Los Angeles, is spending conference week at the home of her parents, Rev. and Mrs. E. J. Inwood.

Fred Moerser left yesterday for the mines at Randsburg, after a six-weeks' visit with his wife and daughter here.

SUBSCRIBERS, ATTENTION! Should our carriers overlook you in the delivery of the Register, do not fail to call Pacific 4, or Home 409 and a copy of the paper will be sent you by our messenger. Do not call before 5 p. m., as perhaps the carrier has not reached your place, but call before 7, as all carriers should have their territories finished by that hour. Prompt and efficient service is our motto.

Every boy and girl should see the War Pictures at Clune's today, 5 cents.

OSTEOPATHY AND MEDICINE. Dr. C. V. Billingsley, M. D., D. O., 402 Spurgeon Bldg. Phone 223-W.

Dr. Peryl B. Magill, Osteopath, room 12, Rowley Bldg. Pacific 956-W.

## WILL TALK TONIGHT ON POULTRY DISEASES

Poultry raisers of this section who attend the lecture at the city hall tonight under the auspices of the Orange County Poultry Fanciers' Association will enjoy a treat. Dr. J. B. Beach, of the University of California, will talk on "Poultry Diseases and Their Treatment." He is an interesting talker and handles his subject in a thorough manner.

## ORANGE HIGH GETS GOOD TERM START

ORANGE, Sept. 19.—With a total of 320 students enrolled, activities at Orange Union High School are getting into full swing.

Principal Brunton started his gymnasium class yesterday afternoon at the seventh period with an enrollment of thirty pupils, who will be drilled in military exercises, marching, and the like. Miss Curtis will start her girls' gym class this week also.

Football prospects are unusually bright for this year. Lockers and suits were given out to the men today. Thirty candidates are out for positions on the eleven and the crowd includes some strong material with a good proportion of veterans from Coach Benson to build his team around.

## TRADED FOR RANCH

E. S. Houghtaling of Orange has traded his property there for an alfalfa ranch, one and one-half miles from Perris and will remove to that place to reside.

## MOTORCYCLE MISSING

Officers have been asked to keep a lookout for a Thor motorcycle, stolen at Seal Beach Sunday night. The machine belonged to C. L. Webber of Yorba Linda.

## PENNSYLVANIA PICNIC

The Pennsylvania Society of Southern California will hold another all-day union and picnic, being the second one for the season, at Sycamore Grove, Los Angeles, Saturday, September 23.

John Murphy after two months' absence has leased the Fountain at Mater's Drug Store and will serve both hot and cold lunches, starting Tuesday, Sept. 19. Will be pleased to meet former patrons and friends.

DON'T NEGLECT YOUR COLD Neglected colds get worse, instead of better. A stuffed head, a tight chest must be relieved at once. Dr. Bell's Pine-Tar-Honey is Nature's remedy. Honey and glycerine heal the irritated membrane, antiseptic tar loosens the phlegm, you breathe easier and your cold is broken up. Pleasant to take. Dr. Bell's Pine-Tar-Honey is an ideal remedy for children as well as grown-ups. At your Druggist's, 25c.

## HARMONY GATHERING OF REPUBLICANS IS TO BE HELD TONIGHT

Two Central Committee Sub-Committees Are Appointed By the Chairman

Tonight the meeting for the formation of a new Republican club is to be held at the city hall. This meeting is called by two committees, one representing the Johnson-for-Senator Club and the other representing the Orange County Republican Club. These two committees concluded that a new club should be organized so that there could be a united effort made for the election of the Republican nominees.

Walter Eden, chairman of the Orange County Republican Central Committee, has announced the appointment of two committees that he was authorized by the central committee to appoint. The committees are: Executive—J. C. Mitchell, Garden Grove; E. W. Hemphill, Fullerton; N. T. Edwards, Orange; J. P. Greeley, Balboa; R. E. Williams, Santa Ana. Finance—R. E. Larter, Wintersburg; T. E. Stephenson, Santa Ana; E. N. Cook, Anaheim; G. D. Williamson, Villa Park; G. B. Prather, Tustin.

## CITY TRUSTEES

TUBBS DECLARES STREET'S  
LIGHT JUICE FLOWS WEAKWANTS INSPECTOR  
TO MAKE REPORT  
ON BRIGHT LAMPS

City to Tear Up and Repair  
North Main North of  
S. P. Tracks

Next Street to Be Taken Up  
In Street Betterment Work  
Is French

City Trustee J. W. Tubbs declared last night that the city is not getting as much electric juice in its street lights as it is paying for, and as a consequence of his vigorous statement of his conviction, Electrical Inspector William McCulloch was instructed to make an investigation and report.

"We aren't getting as much light from these new lights as we got from the old arc lights," declared Tubbs. "Some nights these new lights look mighty pale. I'll venture to say that in some of the 400-candlepower lights we do not get as much juice as ought to go through a 100-candlepower

An Inside Bath  
Makes You Look  
and Feel Fresh

Says a glass of hot water with  
phosphate before breakfast  
keeps illness away.

This excellent, common-sense  
health measure being  
adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach, or others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

Good  
Advertising

Atascadero News, August 12: Out from San Luis Obispo County this month to every corner and quarter of the United States and to many foreign countries, will go by mail the first issue of the Woman's National Magazine, to hundreds of thousands of homes. It is safe to say that not one in ten thousand of the people who will receive and read this magazine ever heard of San Luis Obispo County, or knows that it is on the map. To have a magazine with the largest circulation of any publication on the Pacific Coast, published in this county, is not going to hurt the county.

## Consider

the purchasing power of such an army of readers, most of whom have a natural desire to own a home in California. Templeton-Paso Robles district is immediately north of the Atascadero Colony and is already feeling the stimulus of nation-wide publicity.

Right now is a good time to visit the locality and see the fine Bartlett Pears, French Prunes and Almonds being harvested and see the walnuts, apples and other fruits on the trees—all grown without irrigation. Drop me a one cent postal with your name and address plainly written; the booklet I will send you will give you much valuable information.

WHEN ORANGE AVENUE  
DECIDES WHAT WANTS  
COUNCIL WILL ACT

Flouncing Around Between  
Crushed Rock and Asphalt  
Must Cease

The paving of Orange avenue from Chestnut to Bishop is back where it was many months ago. The city has folded its arms, and has told Orange avenue that when the avenue finds out what it wants the city will take hold of the rope and pull.

"Orange avenue has caused us a lot of trouble," said Trustee McPhee in bringing the matter up last night. "The majority has flounced around between crushed rock and asphalt, and the city is out \$160 for trying to help get the street improved. It seems to me that the best thing the city trustees can do is to give the property owners time for rest and meditation, and possibly prayer, and when a substantial majority makes up its mind what it wants we can proceed to pave the street."

Trustee Tubbs said he did not want the board to attempt to do anything until a decided majority shows up with its mind made up and with an assurance that it was going to "stay put."

Greenleaf and Visel voted on the motion of McPhee and Tubbs in favor of tabling all matters concerning Orange avenue paving. Maryatt voted no.

light. We are paying the Edison company \$9000 or \$10,000 a year, and when I noted what the Edison company is dishing up lately I became satisfied that the city is not getting as much as it is paying for. We ought to have some way to meter these street lights."

City Attorney Scott said the city has a remedy if it can show that the contract is not complied with.

The matter came up last night when it was proposed that Street Superintendent O'Brien put on a man to clean the ornamental light posts and dust the globes. O'Brien stated that that work should be performed by the Edison company, not the city.

The voltage question was left to the electrical inspector for a report, and the cleaning of the poles and lights is to be taken up with the Edison company.

## Place New Lights

With the exception of the Second ward, new street lights have been located. Incandescent lights will be placed as follows:

First Ward—On Camille at Van Ness and Parton, on Bishop at Van Ness and Parton, on Richland at Van Ness, Parton and Garusey, on Highland at Van Ness and Parton.

Fourth Ward—On First at French, Lacy, Garfield, and Hathaway, at Oak and Chestnut, two on Cypress, one on East Fourth; move are at First and Orange to Spurgeon and First.

Fifth Ward—On West Fifth at city limits, Western avenue and west of small bridge, at Hesperia and Pine; two on Pine, two on Chestnut and two on Bishop, all between Flower and Baker.

Sixth Ward—On Riverine between Sixth and Hickey, and one between Hickey and Tenth; one on Ross between Hickey and Tenth; one at Flower and Sixth; five on Hickey.

## Invitation Accepted

An invitation from the firemen asked the board to attend a demonstration of La France fire engine and to a feed at the fire hall tonight. Tubbs said that he did not see any use in taking officials' time with such demonstrations, the fire underwriters having decided that Santa Ana does not need such an engine. Visel said no harm could come of the demonstration. The invitation was accepted. Tubbs and McPhee voted yes as to the feed.

The request of the League of California Municipalities that a delegate be sent to the meeting at Visalia October 10-15 was tabled. A request that Santa Ana's delegates boost for

SALTS FINE FOR  
ACHING KIDNEYS

We Eat too Much Meat Which  
Clogs Kidneys, Then the  
Back Hurts

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatism twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You must simply keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Advertisement.

BEACH TRUSTEE  
SEES VICTORY  
IN BOND VOTE

"The \$125,000 bond issue to be voted on next Monday will receive practically the unanimous support of the 500 voters we expect to express themselves at the polls," said S. R. Jumper, president of the city council of Newport, who passed through this city this morning on his way to Riverside on private business.

"There are between 560 and 570 voters registered and we expect all but fifty or sixty to show up at the polling places. There will not be over thirty ballots cast against the project. Men who were formerly opposed to the issue are now its strongest supporters. There has been a decided change in the sentiment of the voters of the north end of the city, and but little opposition will come from that end."

"We have made plans and are making efforts which will result in getting most all the registered voters out on election day."

"Of the total issue \$100,000 will be devoted to jetty work and \$25,000 to dredging. It is up to the city of Newport to make the first move in the matter of definite action toward making a harbor at Newport—and she will deliver the goods."

TWO PERSONS HURT IN  
OVERTURNING OF AUTO

FULLERTON, Sept. 19.—In the overturning of an automobile at La Habra Sunday morning, two persons were injured slightly, and the third, a 3-year-old girl, miraculously escaped hurt. The injured are Al Goodnight, employed at Glazier Brothers' store, La Habra, and his 2-year-old son. The latter received a laceration on one leg and Goodnight was severely bruised.

Goodnight with his two children, was driving in a Ford to Whittier. Shortly after passing through the business district of La Habra a hat worn by one of the children was whipped loose by the wind and threatened to blow off.

Goodnight turned in his seat to adjust the youngster's hat and at that moment the accident happened. It is supposed a bump in the road caused the car to swerve, wrenching the steering wheel from Goodnight's grasp. The car careened and overturned completely, throwing the three occupants clear of the wreck.

MRS. COWLES ATTENDS  
STATE WOMEN'S CLUB  
MEET IN MINNESOTA

ANOKA, Minn., Sept. 19.—Mrs. Josiah Evans Cowles of Los Angeles, president of the General Federation of Women's Clubs, is attending the State Federation convention here today. Mrs. Cowles will tell how, because she opposed the California Federation's taking up suffrage as an issue, hundreds of anti-suffragists flocked to her standard and joined the federation. Mrs. Cowles is an ardent suffragist.

AMERICAN HOUSEWIVES  
REQUESTED TO AID TO  
SOLVE BREAD PROBLEM

NEW YORK, Sept. 19.—Housewives from every corner of the United States have been asked to meet in New York next Monday for a session with the National Bread Committee of the National Housewives' League in an effort to determine what steps are to be taken to meet the increased cost of bread.

Dr. Jacobs, Santa Ana Painless Dentist, 102½ East Fourth. Phone 253.

SUITCASE CONTAINING  
RATIONS FOR MONTHS  
CARRIED BY L. A. MAN

NEW YORK, Sept. 19.—Adam Dixon of Warner of Los Angeles, friend of Bryan, arrived at the Waldorf carrying in his suitcase enough provisions to last him for a couple of months. He is his own cook and never has to wash a dish, for he has evolved the perfect ration. The ration comes in lumps the size and shape of chocolate drops, five of them make a meal. Each contains wheat, corn, oats, rice, lentils, beans, peanuts, walnuts, olives, grapefruit, oranges, raisins, figs, prunes, pineapple, asparagus, spinach, lettuce, onions, carrots and celery. Mr. Adams is a vegetarian, but he is in New York to concoct a special edition of the ration which will do for a Thanksgiving dinner.

TACOMA, Sept. 19.—Harry W. Smith is Tacoma's new Chief of Police, and just to show that the age of miracles is not passed, it may be said that he wears a No. 6 shoe. All of which fails to meet with the approval of old-time patrolmen, whose feet have become large and flat from long years of tramping pavements. They do not even profess to be keen for their new boss. Furthermore, he promises to make radical changes in the department make-up and assignment of officers and give the plain-clothes jobs to men who make good. Smith has been with the department eight years, during which time he has been Bertillon expert.

STATE HAS 17,865  
TEACHERS TO DATE

SACRAMENTO, Sept. 19.—California, at the beginning of the present school year, had 17,865 school teachers. Statistician Job Wood of the department of education announced today. This is an increase over the number at the beginning of the last term.

The kindergarten schools of the state employed 584 teachers, a gain of 106 for the year. The eight southern counties have 408 of these.

The elementary schools employ 13,318 teachers—1238 men and 12,080 women—a gain of 36 men and 113 women for the year. The high schools employ 3999 teachers—1610 men and 2389 women—a gain of 206 men and 400 women.

The high schools have shown a much larger gain than usual, commented Wood. "One reason is that the intermediate courses that have been established in the larger cities have replaced the elementary teachers in the upper grades by high school teachers."

Dr. Ada B. Keller, Osteopath, graduate of Kirksville, Mo. Office, 804 West Fourth Street. Phone 238.

## "BIG VOTE" DAYS ARE PASSING SWIFTLY--ARE YOU "ON THE JOB?"

Miss Vivian L. Tower of Anaheim Makes Greatest Gain In Today's Score, Showing What One Day's Real Hustling Will Do For a Low Score.

Several Others Show Big Gains of Over and Nearly 100,000, and Their Names Will Soon Appear In the "Roll of Honor"—Will Yours Be There Too?

Some of the Best Workers Didn't Report Today, But They Are Hustling Just the Same—It is Astonishing How Few Subscriptions Will Make a Big Gain.

Spirited rivalry marks the progress of the Register's auto-cash-popularity contest, and this spirit is by no means confined to the candidates themselves, but is shared by their friends and readers of the Register generally, as well as by hundreds who are personally unknown to any of the competitors. Show some one that you are in this contest in earnest. Demonstrate this earnestness by forging ahead and entering the ROLL OF HONOR. Right now and there you will be recognized as a candidate who will have to be reckoned with at the final count. Work towards the 500,000 vote mark with rapidity, and the choice of those who have no favorites in this campaign may fall on you. Your friends will help you with a rush and the first thing you know you will have a steady stream of votes pouring into the ballot box.

It is astonishing how few subscriptions it takes to bring a low-score candidate up with the leader. Right now and there you will be recognized as a candidate who will have to be reckoned with at the final count. Work towards the 500,000 vote mark with rapidity, and the choice of those who have no favorites in this campaign may fall on you. Your friends will help you with a rush and the first thing you know you will have a steady stream of votes pouring into the ballot box.

Today's Score Shows Some Big Gains. The most notable gain today is that of Miss Vivian L. Tower of Anaheim, who increases her score a little over 150,000; but two others show an increase of over 100,000 each—Sylvia Shields and Ben Brown. Several others show increases of very near 100,000.

Miss Tower's increase starts her well on the way to the HONOR ROLL, and into the running for the big prizes. Another contestant who makes a fine increase is Miss Hayes Fleming. She jumps from 159,000 to 219,520.

Several of the best and most successful workers, including such names as Mrs. Myrtle Waffle, Miss Ella Davis, Miss Hazel Brady, Carl Burns, William Hazen, Theodore Gilbank, Herman Ranney, Rose King, Berdella Stark and probably others, are evidently too busy to report.

### The Big Vote Days Are Rapidly Passing

You should never for a moment forget the all-important fact that after Saturday, September 30, a subscription will get you only half the votes it gets you NOW; or, to put it stronger, that a subscription secured BEFORE September 30 will give you DOUBLE the vote of a subscription secured AFTER that date. And that NEW subscriptions secured before September 30 count for the Diamond Ring or the handsome Clothes.

Prizes Convertible to Suit Winners. One of the small joys in the Register's contest—small in size only, for he is a hustler—thinks he is going to win the Diamond Ring that will be the First Award, on September 30, for the largest NUMBER of NEW subscribers secured before that date.

"And if I don't win the Diamond Ring," he says, "I'm sure to win the Suit of Clothes. But, Hully Guey, I can't afford a \$35 Suit of Clothes and I wouldn't be caught wearing a Diamond Ring for anything. What about it?"

Well, whoever wins that Diamond Ring can get cash for it very easily—Diamonds are of standard value. Or the winner may exchange it for anything of equal value in Carl G. Strock's Jewelry and Music Store. It may be converted into a payment on a Victrola or a piano, or into silverware for the table, or a watch or two watches.

And as for the Suit of Clothes—well, the lad, if he should win, can get a boy's suit at any value he may desire and take the balance of his \$35.00 in shirts, hats, ties, underwear—anything to be had of a first-class clothing store and haberdashery, such as that of Hill & Carden.

Same with the Ladies' Suit or Cloak. The E. S. Gilbert Company will give the winner \$35.00 worth of anything desired from a first-class dry goods store.

### He Was Worried and Hopeless

"For ten or twelve years I was bothered with bad kidney trouble," writes T. F. Hutchinson, Little Rock, Ark. "I tried many remedies and doctors, but grew worse all the time. I was worried and had almost given up all hope. I tried Foley Kidney Pills and they helped me a lot. I have since used five boxes and am now a well man." Foley Kidney Pills drive out aches and pain due to kidney trouble; also sleep-disturbing bladder disorders. Rowley Drug Co.—Advertisement.

### FORGET YOUR ACHES

Stiff knees, aching limbs, lame back make life a burden. If you suffer from rheumatism, gout, lumbago, neuralgia, get a bottle of Sloan's Liniment, the universal remedy for pain. Easy to apply; it penetrates without rubbing and soothes the tender flesh. Cleaner and more effective than musky ointments or poultices. For strains or sprains, sore muscles or wrenched ligaments resulting from strenuous exercise. Sloan's Liniment gives quick relief. Keep it on hand for emergencies. At your Druggist's, 25c.

Going to Los Angeles take Crown Stages every 1/2 hour, round trip \$1.00.

Orange County Business College.

Every boy and girl should see the War Pictures at Clune's today, 5 cents.

### CERTIFICATE OF DOING BUSINESS UNDER A FICTITIOUS CO-PARTNERSHIP NAME

The undersigned do hereby certify that they are conducting a dry goods business at 115 East Fourth Street, Santa Ana, under the fictitious name of "The County of Orange, California," and that said firm is composed of the following persons whose names and addresses are as follows:

Chas. Spicer, 601 S. Sycamore Street, Santa Ana, California.

J. W. Tucker, 315 Hickey Street, Santa Ana, California.

Witness our hands this 19th day of August, 1916.

CHARLES SPICER, J. W. TUCKER

State of California, County of Orange.

On this 19th day of August, 1916, before me, C. A. Kingston, Court Commissioner, in and for said County, residing therein, duly commissioned and sworn, personally appeared Chas. Spicer and J. W. Tucker, known to me to be the persons whose names are subscribed to the within instrument, and they acknowledged to me that they executed the same.

Witness my hand and official seal this 19th day of August, 1916.

C. A. KINGSTON, Court Commissioner for the Superior Court, in and for the County of Orange, State of California.

NOTICE OF PUBLICATION OF TIME FOR PROVING WILL, ETC.

In the Superior Court of the County of Orange, State of California.

In the matter of the estate of Mary Jane Davenport, Deceased.

Notice is hereby given that Friday, the 22nd day of September, 1916, at 10 o'clock a. m. of said day, at the Court Room of Department No. 2 of this Court, in the City of Santa Ana, County of Orange, California, will be heard and argued the application of Roy Davenport, praying that a document now on file in this Court, purporting to be the last Will and Testament of the said deceased, be admitted to probate, that Letters Testamentary be issued thereon to Roy Davenport, at which time and place all persons interested therein may appear and contest the same.

Dated September 11, 1916.

W. B. WILLIAMS, County Clerk.

WALTER EDEN, Attorney for Petitioner.

NOTICE INVITING BIDS

Santa Ana, Calif., Sept. 6, 1916.

In pursuance of a resolution of the Board of Supervisors of the County of Orange, Cal., adopted September 6, 1916, directing this Notice, notice is hereby given that the said Board will receive at its offices at the Court House at Santa Ana, at or before the hour of 2 o'clock p. m. of October 4, 1916, sealed bids or proposals for the construction of a four inch, sixteen feet wide concrete pave-

ment on Myford Road extending from Santa Highway northeasterly a distance of about three-fourths mile.

Bids must be made on the form provided for the purpose, addressed to the Board of Supervisors, Orange County, Cal., and marked "Bid for Myford Road." The work to be done in accordance with the profiles, plans and specifications adopted by the Board of Supervisors on file in the office of said Board and in the office of the County Surveyor in the Court House.

Each bidder must submit with his proposal a satisfactory check certified by a responsible bank and payable to the order of the County of Orange, for an amount not less than five per cent of the aggregate sum of the bid, as a guarantee that the bidder will enter into the proposed contract if the same is awarded to him, and in event of failure to enter into such contract said check shall become the property of the county.

The amount of the bond to be given to secure a faithful performance of the contract for said work shall be 25 per cent of the contract price thereof, and an additional bond in an amount equal to 50 per cent of the contract price for said work shall be given to secure the payment of claims for any material or supplies furnished for the performance of the work contracted to be done by the Contractor, or any work done in or about any kind done thereon, and also will be required to furnish a certificate that he carries compensation insurance covering all his employees upon work to be done under contract which may be entered into between him and the said county for the building of said road.

Under these specifications the County of Orange will furnish the necessary sand, crushed rock, gravel and cement. Bids, cars nearest freight siding to said work.

Copies will be furnished intending bidders upon application to the County Surveyor of said County for which a deposit of three (\$3.00) dollars will be required, same to be returned on the filing of bid, and the return of plans and specifications.

The Board of Supervisors reserves the right to reject any and all bids.

By order of the Board of Supervisors of the County of Orange, State of California:

W. B. WILLIAMS, County Clerk.

NOTICE OF SALE OF BUSINESS

Notice is hereby given that the undersigned have this day sold and transferred (and given possession of) the business known as, and doing business under the name of W. L. Lindsay & Co., at 321 East Fourth Street, in the City of Santa Ana, County of Orange, State of California, to D. W. Roe and L. C. Hingworth, who will continue the business, at the same place, under the name of the Orange County

W. L. LINDSAY & CO., W. L. LINDSAY, D. W. ROE, L. C. HINGWORTH.

**ATTENTION—HIGH SCHOOL STUDENTS**

The new course of study for 1916-17 is now ready and you can get your copy at

**SAM STEIN'S, Of Course**

210 West Fourth St.

Spurgeon Bldg.

Come in and get it.

**BOARD OF SUPERVISORS****STORM WATER REFERENDUM'S TURNED DOWN****District Attorney Rules Law Is Not Applicable, and Petition Is Denied**

Today District Attorney West advised the Board of Supervisors that the state law providing a referendum is not applicable to the order of the board establishing the United Storm Water District. Upon that advice, the board denied the petition for a referendum vote.

**HOW TO REDUCE YOUR WEIGHT****A SIMPLE, SAFE, RELIABLE WAY**

People who are over-burdened with superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear. If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from Rowley Drug Co., or any good druggist, a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days treatment has been reported to show a noticeable reduction in weight, footprints become lighter, your work seems easier and a lighter and more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial.—Advertisement.

fighting it circulated a referendum petition, hoping to get a county-wide vote on the question. The denial of the petition may be taken into court.

**Contract Is Let**

Today a contract was let to H. Clay Kellogg of Santa Ana for rebuilding the Santa Ana canyon road around Sulphur Slide. The work includes building a retaining wall 1800 feet long. Kellogg's bid was about \$24,000.

**Election Set**

The election of trustees of the Fullerton-Orange-Storm Water District was set for October 19. The voting will be done at Orangehorpe school house. F. M. Smith, A. G. Miller, L. M. Gardner, George Porter are the election officers. There is no contest in the district.

**To Protect Tract**

Attorney W. M. Brown of Orange presented a petition for the formation of the Santiago Storm Water District, organized to protect the Nutwood tract at Orange. The petition was set for hearing on October 24.

**SEASON'S LAST BAND CONCERT AT PARK TO BEGIN AT 7:45, NOT 8**

Director W. Frank Harris announces the following program for the last Elks' Band concert of the season to be given at Birch Park tomorrow night. It will begin at 7:45 o'clock instead of 8, as in the past:

- 1 March—"Quarter Back"—Chambers.
- 2 Patrol—"The American"—Mason.
- 3 Selection—"Grand Sacred Potpourri"—Joy to the World.
- 4 Overture—"Morning, Noon and Night"—Military Fantasia.
- 5 Descriptive—"Military Fantasia"—Battle of San Juan Hill.

Synopsis:—Morning: Rooster Crows; Hustle for Breakfast; Assembly; Adjutant's Call; Horsesmen in Distance; The Prayer; The Battle; The Triumph; The Star Spangled Banner, finale.

**DEMONSTRATION OF FIRE PUMP TONIGHT**

A demonstration of a fire pump will be held tonight at Birch Park, under the auspices of the Santa Ana Fire Department members. Representatives of departments from other cities will be present. The demonstration will begin at 7:30.

**NATIONALIZATION OF CANADA RYS. IN VIEW**

OTTAWA, Ont., Sept. 19.—President E. H. Smith of the New York Central left here with Sir Henry Drayton for Western Canada to gather information for his report on Canadian railway lines.

He has already examined the situation between here and Halifax. Professor Swain of Harvard University has been engaged as statistical expert, with headquarters in Ottawa.

**CITY HALL****BOY FRIGHTENED ON GLIMPING MYSTERY FACE AT WINDOW****'Peeping Tom' Reports Send Officer to Parton Street, Twice In Night**

A good peep at a "Peeping Tom" was secured last night by Frank Nesline, 12-year-old son of F. C. Nesline, 848 North Parton street. Night Policeman Sid Smithwick was called to the residence as a result. He made a search of the neighborhood but found no suspicious character. Smithwick responded to two calls from Parton street. The first came from the Nesline home at 6:55 and the second came from the corner of Parton and Hickey, at 10:30, when some one reported in that a suspicious character was seen loitering on the street corner.

When young Nesline went into his bedroom to retire, he stepped to the window to pull down the curtain. A face stared at him through the window. The boy was so startled that he did not take time to survey the man and get a good description of him. All he noticed was that the "Peeping Tom" wore a black hat and black coat. The lad rushed to another room to inform his mother. Later word was telephoned to the police department from the home of Mrs. W. C. Watkins, 850 Parton.

It develops that the neighborhood has been the scene of various peculiar actions on the part of some one during the past two weeks. Gates have been opened, tapping has been heard on windows, and lights have been flashed in windows.

Mrs. Watkins was disturbed about 3 o'clock in the morning a short time ago by taps on a window of her house. When she was aroused the odor of smoke was very strong and she got up and went through the house to investigate the source of the smoke. She found nothing on fire. She saw no one about the house.

C. C. Chandler, who resides near Mrs. Watson, a few nights ago had a light flashed on him when he went into his bedroom.

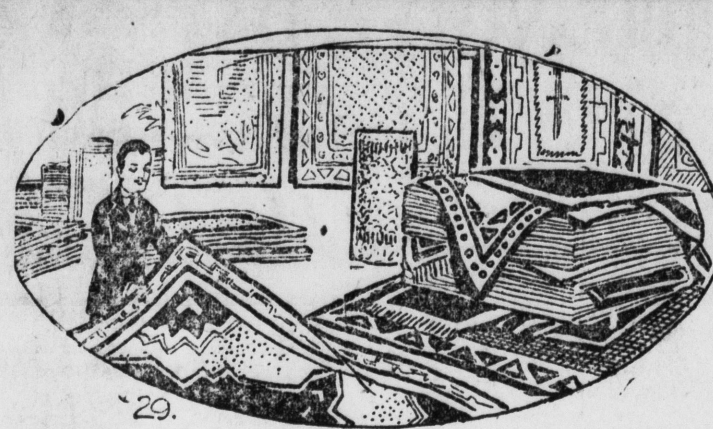

Whether these disturbances have been the result of pranks of boys is not known.

It is certain, however, that the incident at the Nesline home last night was not the effort of a boy or boys to scare the inmates of the house.

Fraternal Brotherhood will give a Hard Time dance Thursday evening, the 21st. Prize for best costume. Refreshments will be served.

**CLEAN BAD SKIN FROM WITHIN**  
Plainly, muddy complexions are due to impurities in the blood. Clear up the skin by taking Dr. King's New Life Pills. Their mild laxative qualities remove the poisons from the system and brighten the eye. A full, free, non-painful bowel movement in the morning is the reward of a dose of Dr. King's New Life Pills the night before. At your druggist's, 25c.

Dr. Jacobs, Santa Ana Painless Dentist, 102½ East Fourth. Phone 253.

**The Famous Bigelow-Hartford Rugs**

These Rugs, which we feature, come to us from the Bigelow-Hartford mills. They are equal in quality to the finest chosen by elaborately furnished hotels. Such rugs must have both beauty and wonderful durability. These qualities, and the low prices, are the secret of the popularity of Bigelow-Hartford Rugs. May we show them to you?

**HORTON-SPURGEON FURNITURE CO.**

East Fourth and Spurgeon.

**AT THE COURTHOUSE****JURY SECURED TO TRY ADAMS**

Witnesses Summoned By Defense Includes Several Who Went to Convention

**THE CY ADAMS JURY**

The twelve men selected to try Cyrus Adams on a charge of criminal libel are R. C. Burkett, W. L. Shatto, J. W. Shirley, J. W. Morgan, William Scammon, C. H. Warner, J. P. Glover, H. F. Brewer, H. F. Shorting, A. N. Smith, P. E. Newman, P. B. McCarter.

The prosecution rejected J. P. Spaulding, Jacob Wittmer, August Block. The defense rejected E. R. Williams, C. D. Post, L. D. Toogood, Albert Rohrs and J. V. Flagg.

Adams is on trial on a charge of responsibility for circulating at Orange during the last city election handbills upon which appeared statements that some of the delegates to the Riverside convention that nominated Miguel Estudillo for state senator eight years ago were paid for their votes.

Resenting the statement, J. W. Morrison had Adams arrested.

Witnesses summoned by Deputy District Attorney Koepsel, who is prosecuting, are J. W. Morrison, H. S. Huff, Walter Danner, the boy who handed out the handbills, Jennie Wyatt, W. G. Hagen, J. P. Boring, W. O. R. A. Fuller and K. E. Watson, all of Orange.

Attorneys Holley & Holley, for the defense, summoned Henry Kuchel, editor of the Anaheim Gazette, which had an article hammering Estudillo; Frank Miller of Riverside, who the article alleged had something to do with the convention; Miguel Estudillo, J. M. Shaeff of El Monte, C. E. Sweet of Los Angeles, S. Armor, Mrs. S. Armor, John Landell, J. O. Forster, H. H. Hale, W. F. Lutz, G. L. Wright, Jacob Walton, Rush Blodgett, J. H. Whitaker, A. H. Stutsman, R. Y. Williams, E. E. Keech, A. Ditmer, N. T. Edwards. In the last list are included a number of those who attended the convention, some of them being delegates who would not vote for Estudillo. The subject in list included the name of Jacob Walton, who is dead.

**Foreclosure Cases**  
Suit to foreclose a \$2000 mortgage has been brought by Adolph von Gruenigen against Jonas Thowson.

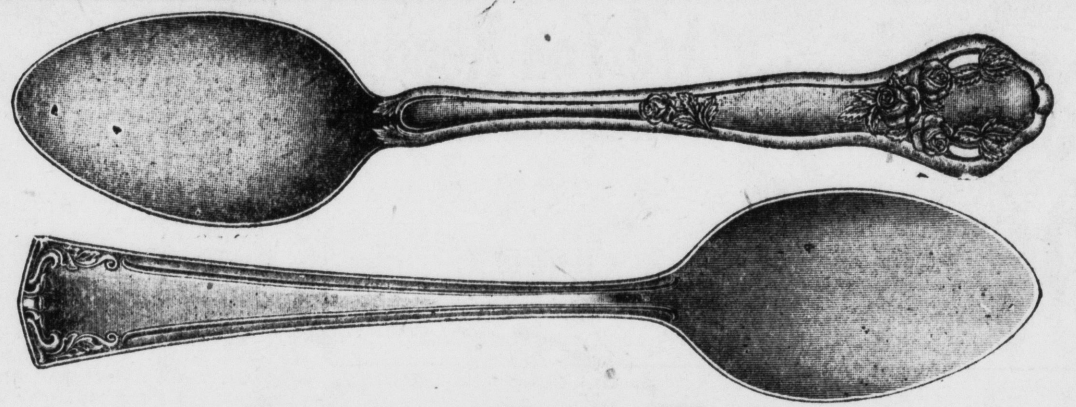

**MAYR'S WONDERFUL REMEDY FOR STOMACH TROUBLE**

Gall Stones, Cancer and Ulcers of the Stomach and Intestines, Auto-Intoxication, Yellow Jaundice, Appendicitis and other fatal ailments result from Stomach Trouble. Thousands of Stomach Sufferers owe their complete recovery to Mayr's Wonderful Remedy. Unlike any other for Stomach Ailments. For sale by druggists everywhere.

**DRAGON BOX CANDIES AND CHOCOLATES**

The choicest fruit centers and the most delicious and select coatings. The gift par-excellence.

## A Lecture On Christian Science

By Dr. Walton Hubbard, C. S. B., Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

A large and attentive audience attended the lecture on Christian Science delivered last evening by Dr. Walton Hubbard, C. S. B., of Spokane, Washington, member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, of Boston, Mass.

Every seat of the lower floor of the Grand Opera House was taken and a number of seats in the balcony were filled. The speaker was introduced by Mr. F. W. Briggs, who spoke as follows:

"Voicing the desire of the First Church of Christ, Scientist, Santa Ana, I welcome you to this auditorium. They invited you here that you might hear and learn something of the truth concerning Christian Science. The science which Mrs. Mary Baker Eddy, the discoverer and founder of it, defines as the 'Law of God, the Law of Good, interpreting and demonstrating the Divine principle and rule of a universal harmony.' What this Divine principle is and how it operates when understood, and practiced to heal and regenerate and save mankind is the object of this lecture in some measure to explain.

"The privilege has been granted me this evening of introducing to you a member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, of Boston, Mass., Dr. Walton Hubbard, of Spokane, Washington, who will now address you upon this subject."

There has never been a time in human history when men have not yearned for some sure way to be rid of those conditions of body and mind which have destroyed their happiness, or kept them from the full enjoyment of life and peace. They have turned from one material method to another in the vain search for physical relief, too often to be told that there was no further hope. They have found it impossible to escape in any great degree from sorrow or worry, discord or despair, until they have come to believe that these conditions must in large measure be endured. More and more through this failure to be rid of their sicknesses and woes have men been turning away from materiality and groping for something more satisfying to meet their needs. They have often prayed to God for healing when in sickness or distress, but only occasionally did the healing come, and then it was thought that God had set aside the existing order of things for the one occasion and as a special mark of favor. It has only been since the advent of Christian Science that primitive Christian healing has been restored to the world, and we are learning through the understanding of the Principle of Christian Science and the application of its rules, that we may confidently expect healing in every case, and that there is a spiritual law sufficient for every material condition.

Christian Science was discovered and founded by Mary Baker Eddy, a woman of unusual spirituality and of a deep religious sense. She was a consistent and tireless analytical student, and through years marked by sickness and trials her deep religious sense led her to strive to see and to understand the divine Principle in every benefit which she received. This persistent search for Truth was rewarded by the discovery of the divine laws of God, which she named Christian Science.

For three years following her discovery Mrs. Eddy devoted all of her time to a deep study of the Scriptures, seeking a solution of this problem. These are her own words (Science and Health, p. 109): "I knew the Principle of all harmonious Mind-action to be God, and that cures are produced in primitive Christian healing by holy, uplifting faith; but I must know the Science of this healing, and I won my way to absolute conclusions through divine revelation, reason, and demonstration. The revelation of Truth in the understanding came to me gradually and apparently through divine power."

To have discovered God's law of healing as taught and practiced by Jesus and his followers meant that Mrs. Eddy must have approached the Scriptures with such a thought of God as Love that she saw it was impossible for God to do less than to provide all good for His children, and such a consciousness of God as Truth that she knew God's truth was revealed.

Mrs. Eddy's study of the Scriptures revealed the fact that the entire Bible record teaches conclusively that a right understanding of God has always brought dominion over all material conditions, and that when the knowledge of Truth has been correctly applied it has always been attended by healing and regeneration. The Scriptures abound in evidence that to understand God brings healing. Especially is the New Testament replete with the statements of the liberty that comes through "a right apprehension of Him whom to know aright is Life eternal" (Science and Health, Pref., p. vi).

The fact that healing and the knowledge of Truth by which we are to get it has been passed over as not meant for this time or for all mankind, has been due to no fault of the Bible in presenting it, but to our attitude of thought in approaching it. Because we had been educated to believe that physical healing must be brought about by material means, we had not deemed it possible that God had provided spiritual healing from sickness and every form of error, so we unconsciously studied the Bible with the view of substantiating our preconceived notions about what it ought to teach.

We are led through the study of Christian Science to try to stop view-

ing man as sick and sinning, and to accept the fact of his righteousness and dominion, which is insisted upon throughout the Bible, and to undertake to manifest this dominion over all things. To most of us the body, with its many forms of sickness and error, seems to need most immediate attention,—first, because it has such a vast number of sicknesses to which it lays claims; and second, because the history of material means for the alleviation of these troubles shows them to have been almost a complete failure. I say almost a complete failure, because the latest remedy and the latest method, the ones that have replaced last year's remedy and last year's method, have not as yet been proved useless; but the history of the past hundreds of years will repeat itself, and next year's material means will replace what will then be this year's failures.

Some years ago a new and supposedly wonderful remedy was advocated for the treatment of pneumonia, and the medical journals were full of the records of the almost instantaneous cures which had come about through its use. As a practicing physician I prescribed this remedy at the first opportunity that presented itself, but with no result. I have since come to see that the remedy worked just so long as it had some enthusiastic optimists believing in its efficacy, but failed to work as soon as it became generally used by a generally pessimistic profession; a profession grown pessimistic through its continual history of drug failure. This drug, in spite of the marvelous cures accredited to it for several years, has long since gone the way of dismal failure of those that preceded it.

Another famous remedy that came into almost immediate prominence within the last year or two, and which has been lauded as an absolute specific for certain disorders, is now being condemned by some of its former supporters as doing no good and much damage. It has been remarkable both for the claims made for its efficiency and the charges made for its administration. It was a brilliant success so long as people believed in its efficacy, but it is now fast becoming a dull failure.

Surgical and other material forms of treatment are in this same process of change. It has only been a very few years since searing of parts of the body with a red-hot iron was advocated as good treatment, though we would condemn this now as barbarous, and the day will surely come, and is not far distant, when the wholesale removal of the tonsils and the injection of the many kinds of animal serums will be considered quite as barbarous; for just so long as we cling to materiality, today's apparent success will be tomorrow's failure.

Vaccination has remained in a position of supposed efficacy for a longer period than anything of which I know. We can most of us remember when to be able to show a good scar meant a lifetime of protection. But the years of its supposed usefulness are constantly shortening, until now it is maintained that it only protects for a few years, with an ever-increasing coterie within the ranks of the medical profession maintaining that it does not protect at all.

Again and again in toxic conditions and in immunity from contagion, the Christian Scientist is proving that spiritual understanding gives the protection of which Jesus spoke when he said of those who believe, "If they drink any deadly thing, it shall not hurt them."

Medical and surgical methods are changing with such rapidity among the profession the idea of yearly examinations has at times been agitated, the thought being that if it could be shown that a physician was not conversant with the very latest method, he should not be allowed to practice,—though this is admitting that what was good practice a few years ago is not good practice today.

I am not criticizing the doctor,—he does the best he can with the poor weapons which have been given him,—I am sympathizing with him, because just when he thinks he has it, he finds he has not.

In practicing medicine I soon found that there was a certain mental element in every case, and as it was obvious that this element could not be reached by any material means, I began to try to estimate just how large a factor it was in every case that came to me. At first, I thought some cases were quite largely physical, and others quite largely mental, but as time went on and through practice my observation of the mental side of the question became more keen, I saw that many types of sickness were wholly mental, and finally came to see that they did not entirely so.

This did not mean that I was a Christian Scientist when I had arrived at this point,—far from it. I decided that since I had to deal with so large a mental question, which the medical profession either wholly or almost wholly ignored, I would study mental healing from every standpoint from which it had been presented, with the idea that I would find in all literature on the subject the presentation of the same principle, and so would have a broader view of the question than any single writer, and with this knowledge would be able to heal. Accordingly, I studied everything I could find, from mental therapeutics to Christian Science, and as I studied I saw that all were alike except one, and that one was Christian Science.

Christian Science was the only one that had so large a grasp of the illness of God as to refuse to dishonor Him by admitting that anything that He had

made was imperfect or could become imperfect; was sick when he created it, or had within it any God-given quality that could allow it to become sick. It was the only one in which there was no compromise with matter, and which dared to deny the material world, the flesh, and the devil, because they were contrary to His creative perfection; the only one that dared to deny the actual existence of anything unlike God, and therefore the only one that offered assurance of healing after human hope and human will and human reason had failed.

Do you suppose that when I saw all this I accepted Christian Science? No! Instead, for two years I read everything I could find against it (and it was at a time when there was much criticism), in the hope of convincing myself that it was not true, for I saw that the spirituality of Christian Science would not mix with my profession, and I did not want to give up the practice of medicine. But the more I read against it, the more I became convinced of its truth, and here I am. It does heal, and it does save, just as it did in Jesus' time. We need to know something about God, however, in order to appropriate the healing, and throughout the entire teaching of Christian Science the necessity for spiritual understanding in order that we may know God's law is constantly insisted upon.

A study of the lives of the most prominent characters of the Bible reveals the fact that their closeness to God was the result of their deep and constant meditation of Him, and that a knowledge of God has always been essential to the demonstration of His power over material conditions. We are prone to think that Abraham and Moses, Elijah and Elisha, John the Baptist and Jesus, were arbitrarily chosen of God to fulfill a particular mission with no reference to their acquired spiritual understanding, and that their ability to demonstrate God's power was a special gift bestowed upon them for the occasion. It is true that they were chosen of God for the work which they did, but in exactly the same way that great and good men in our own time have been chosen of God, through the consciousness and manifestation of those qualities which enabled them to do that which needed to be done.

On page 488 of "Science and Health with Key to the Scriptures" Mrs. Eddy has pointed out that the verb believe as used in the Bible has the significance of understanding, and she further explains that "the Scriptures often appear in our common version to approve and endorse belief, when they mean to enforce the necessity of understanding."

Throughout the entire teaching of the gospels both Jesus and his disciples constantly asserted that salvation was to come as a result of believing—as a result of having faith in God. Paul says, "Without faith it is impossible to please him; for he that cometh to God must believe that he is, and that he is a rewarder of them that diligently seek him." We are constantly enjoined in the Scriptures to believe and to have faith, but we have accepted these words in the sense of their most shallow meaning, and have thought that all that was required of us was to tacitly believe and we should receive all that Christianity has to offer.

The Greek words for believe and faith are from the same Greek root, a word which means "conviction of truth." And to be convinced of truth means to know, to understand truth. Our dictionaries give this deeper meaning as the one to be used in a religious sense, but our everyday use of the word believe in the sense of giving credence to, and of the word faith in something of the same sense as the word hope, tends to obscure the larger meaning of the words.

Paul in the eleventh chapter of his epistle to the Hebrews, after defining faith as "the evidence of things not seen," gives an example of how the word is to be used when he says, "Through faith we understand that the worlds were framed by the word of God." Now it would manifestly be impossible for us to perceive "that the worlds were framed by the word of God" through anything less than spiritual understanding.

In the third chapter of Acts, Peter, in his sermon on the healing of the lame man, describes his method by saying, "And his [Christ Jesus'] name through faith in his name hath made this man whole." Here the statement is made that healing came about through faith, spiritual understanding of the name of Jesus, the Christ, and the word name as used in the Scriptures had a deeper significance than it has in our modern times. The idea of a name in the Hebrew language and the Hebrew mind was not merely that of a sound by which an object might be designated, but that of a significant term which should really indicate its quality or nature; so that Peter's statement meant that the manifestation of Jesus' nature, the Christ, or God's perfect man, which he had revealed to them, and which they understood, had made this man whole. The Master said in his prayer to his Father, "I have manifested thy name unto the men which thou gavest me out of the world; and what did the Master do but to manifest God's nature to the men that God had given him out of the world? Again and again it is pointed out in the New Testament that faith in his name, that is understanding of his nature, is what heals and saves in every instance.

Christian Science is giving us this enlarged understanding of the nature of God, which is essential if we are to appropriate in greater and greater measure the infinite blessing which infinite Love has in store for us. In undertaking to know something of the nature of God, we are all agreed in admitting that God is omnipotent, omniscient, and omniscient; that is, all powerful, ever present, and all knowing. We are all agreed in admitting His infinite perfection and presence and power; yet after making these statements the religious thought of the world quite generally contradicts them

## School Day Bargains; Fall Bargains; Bargains for the Whole Family

Tomorrow (Wednesday) we will sell boys' Knicker Suits, regular \$7.00 to \$8.00 values, at \$4.50. (Two pairs of pants.)

Also, a large assortment of boys' shoes. Take your choice, fit the boy, and then pay us half the regular price.

by admitting sickness and other forms of inaction are either sent of God or petted by Him, as though divine Mind, any imperfection to send or condemn it without becoming responsible for it.

The Bible speaks of God as Spirit, as Life, as I, and as Love. It also speaks of him as the creator, that from which all things proceed. This thought is expressed in Christian Science by the use of the word Principle for God, since Principle is that from which all proceeds in which it exists.

Mrs. Eddy also given us the term Father, by which there is brought into consciousness the completeness of creator, the motherhood as well as the fatherhood of God, and also a thought of God as Love. When we think of God the Father, our thought of Him is limited by our earthenness of fatherhood, which, no matter how complete, is still lacking in the qualities of those qualities of love and tenderness which the mother expresses. The word Spirit as used in the Bible, and the word which translated Almighty God, both denoting of this same thought of herhood; but this thought has completely lost to us in the translation.

No matter what term we may think of God, whether it be as infinite Life or infinite Principle, or infinite Mind, a lodestone as to the nature of God and the creation will always bring to the same point,—that of the perfection of all that God has made, and the unreality of sickness if that is contrary to His divine I.

The only way we can fail to arrive at this conclusion is by simply saying God is God—no effort to understand Him,—and insisting that the sickness sin which we see about us is according to His infinite truth and holiness.

God as infinite cannot be made manifest in nor can infinite Life be made manifest in sickness, for sickness is ultimate death, and so, in a relative sense, death. Infinite Life can onh manifest in infinite eternality.

God as in Truth cannot be made manifest in sickness, for every truth is infinite harmonious accord with other truth, just as one mathematically truth is in harmony with every mathematical truth, and infinite can tolerate no inharmonious, enough it calls itself sickness and is to be truth.

God as infinite cannot do less for His children to manifest that

Love and supply them with infinite good, and infinite good does not include sickness. What earthly father as a manifestation of his love for his child would bring sickness upon it, or allow it to have sickness if he could prevent it? "If ye then, being evil, know how to give good gifts unto your children, how much more shall your Father which is in heaven give good things to them that ask him?"

When we consider God as Principle, that from which all proceeds, we find it impossible to conceive of both sickness and health proceeding from this one infinite Principle; and yet there is no other source from which anything could come, for, as John declares, "without him was not anything made that was made."

When we consider God as Mind we arrive at the same conclusion, for the manifestation of Mind is thought, and the thoughts of infinite Mind are not sick thoughts, but perfect and healthful and holy.

We all of us accept the statement that God is wisdom, but it is better to say that God is Mind, because wisdom is never anything but the expression of Mind. If we admit infinite wisdom, we must admit that it is the emanation of an infinite Mind.

Let us illustrate the divine Mind by using the ordinary conception of a human mind as an example. You say your friend has a fine mind. You say you know this because he has a lot of fine ideas which he expresses. You have never seen his mind, but you have known the expression of his mind in ideas. If he never moved a muscle, never spoke a word, you would rightly conclude that there was no mind there. So a mind to be a mind must be filled with ideas, and an idea by virtue of being an idea must be expressed. It is impossible to conceive of a mind filled with ideas, yet unexpressed, for a mind with no expression is not a mind but a blank.

Now we have evidence of infinite wisdom in the universe, and the evidence of infinite wisdom predicated an infinite Mind. The infinite Mind is filled with an infinite number of ideas, or thoughts which constitute its wisdom. These ideas, because they are ideas, cannot be separated from the Mind which contains them, and it is the activity, the reflection, the manifestation of these ideas which constitute man and the universe. As God's ideas we exist in Him,—perfect, spiritual, and immortal,—and because we exist in Him the Scriptures declare that "In him we live, and move, and

have our being."

There is a further quality of an idea that it might be well to consider. An idea has no ability to do anything or to be anything other than just the idea of the mind in which it exists. It cannot change itself or become more or less or different than that Mind intended it should be, for it has no volition of its own, and must of necessity express exactly the qualities of the mind whose idea it is. Man is the perfect idea of God, and as an idea of God he has no volition of his own. He cannot be sick or choose to do evil, for if he could change from being God's perfect idea he would be greater than God, because he would have spoiled the infinite design, frustrated the divine purpose. Now infinite Mind is infinite Spirit and infinite Life. In expressing the perfection of infinite Mind, man expresses infinite Life and infinite Spirit, and as an expression of infinite Spirit man must be spiritual and not material. Man, then, as God's idea, God's image and likeness, has all the qualities of God, and not a single quality which is not of God; therefore he is healthful and holy; spiritual, immortal, perfect.

Such a conclusion as this leaves no room for a mortal, material, sick, and sinful man, yet we have the problem of materiality with its sicknesses and woes to deal with as a false belief to be eradicated.

Nothing seems more real to the human mind than does matter, though the most eminent physicists of the present day are quite at one in saying that it is impossible to prove that there is such a thing as matter. They say that matter is a function of something outside itself, the expression of energy; and this is just another way of saying that matter is the expression of thought. Christian Science agrees with them in saying that matter is an expression of thought, but points out that matter is an expression of right thought but of wrong thought; that all right thought, God's thought, real thought, must partake of God's nature, and is therefore spiritual, not material, and is expressed in spiritual things, not material things. The whole material universe, with all its sin, sickness, and death, is just the sense of the opposite,—the sense of the absence of that which God made.

Suppose a man had never had his sight, and sight came to him while he was in a dark room. He would not know that he had his sight, nor would he know that he was in the dark, for it is impossible for one to gain a sense

of darkness without first being conscious of light. But let him be taken into the light and he would see. Then when he was returned to the darkness he would sense it as darkness,—the absence of light. So it is impossible for there to be a sense of darkness except as there is first a consciousness of light. This is equally true of strength and weakness. It is just as impossible for there to come a sense of weakness, except as there is first a consciousness of strength. If there had never been a consciousness of strength as part of what God created, there would never have been a sense of weakness.

So the moment when God said, "Let there be light," which is equivalent to saying, let there be strength, and let there be health, and let there be holiness, was the first moment wherein there could have come a sense of darkness and weakness, and sickness, and sin. For every good and perfect thing which God has made, there has in like manner come a sense of its absence,—an opposite, a lie, without reality or substance.

When God said, "Let us make man in our image, after our likeness," so that man was made in His likeness, spiritual and perfect and immortal, there came a sense of the absence of that spiritual and perfect and immortal man; and the sense of the absence of a spiritual and perfect and immortal man would be a material and imperfect and mortal man; that is, a mortal mind and a mortal material body called man.

The New Testament calls this material or mortal mind the "carnal mind," or mind of the flesh. We are distinctly told that this carnal mind and its manifestation, carnal body, "is enmity against God"; that "flesh and blood cannot inherit the kingdom"; that "they that are in the flesh cannot please God." So it is plain that God did not make the mortal body, for His own thoughts, His own ideas, cannot be at enmity with Him.

Now this material body cannot do anything of itself, but is simply the expression of the conscious or unconscious thought of the mortal human mind. Investigation proves that all sickness is mental, that is, it is sick thought made manifest on the body; and when we are well it is well thought which is made manifest on the body. Every function, every action, every condition of the body, is the expression of what we are consciously or unconsciously thinking from one

(Continued on next page)

# Do You Believe in Fairies?

Do you believe in fairies? Do you believe that you are guiding your own destiny through life or do you think that there are invisible little creatures who bend you to their wills as they flit mysteriously through the air? Those were some of the questions which an interviewer asked of dainty little Marguerite Clark as the smallest elf of screenland sat in the Famous Players studio waiting for her next scene in the Paramount Picture "Little Lady Elfen."

But why the reference to fairies? Because Miss Clark is appearing in this production in the role of a little Irish lassie who profoundly believes in fairies. She knows that they exist because she can see them—even though her lover cannot. And she knows that it is the fairies who are guiding her to her true love.

But does Miss Clark really believe in such things in this matter-of-fact day of ours? The little star's eyes open very wide and her tiny head is cocked at a very thoughtful angle for an instant and then she replies:

"Why—of course I do! What is all this mysterious substance which we so wisely call electricity? Do we really know what it is? Do you know that even such great experts as Steinmetz and Edison frankly confess that they do not actually know what electricity is, despite the fact that they have chained it and forced it to do their bidding and made it the slave of mankind?"

"But how do we know but what these wizards of our time are only crafty men who have discovered—not a lot of tremendous formulas—but the secret key to fairyland, and that they are simply forcing the fairies to obey them, like the conjurers of old? And when the secret is finally disclosed, are we not going to find that all the thousands of miles of wire were merely strung to deceive us and that the thing which we have called Electricity is in reality the Queen of the Fairies who has been enslaved by these wizards?"

The interviewer gasped—until he de-

tected a mischievous twinkle in Miss Clark's eye as she skipped lightly over to the setting of a sign from J. Searle Dawley, her remarkably clever director. Then he decided that somebody had been making game of his credulity.

## A Lecture On Christian Science

(Continued from preceding page)

moment to the next. If a man were hungry and food which was placed before him had something about it that was exceedingly unappetizing, it would apparently be his stomach which protested, because the thought which he entertained about the food would be made manifest on his body; but what would his stomach know about the food? Absolutely nothing. If he believed that the food was all right, this thought would be made manifest in proper activity of the stomach; and if he had eaten food believing it to be all right and had then discovered that it was all wrong, his changed thought would be made manifest in changed function—in nausea, indigestion, and so forth. In like manner, to believe that cold or wet could harm us would be just as disastrous to the lungs or the throat as to believe that unappetizing food could make the stomach sick.

It is not necessary to know each particular mortal belief, or so-called law, in order that we may appropriate the sicknesses and troubles they stand for, because we have accepted the false belief that man is subject to all manner of diseases, the nature of which he is unaware, and this belief insists that we may have any sort of trouble to which flesh has claimed to be heir.

As we see that both sin and sickness are simply manifestations of mortal thought, thoughts of imperfection, we also see that by putting the thought of the perfection of God and all that God has made in place of this wrong thought, we shall rule out the wrong thought; and with no wrong thought there can be no wrong manifestation. The Bible makes this identical statement when it says "Put off concerning

the former conversation the old man, which is corrupt according to the deceitful lusts; and be renewed in the spirit of your mind; and . . . put on the new man, which after God is created in righteousness and true holiness."

To those who are just beginning the study of Christian Science the nothingness of the material body is the most difficult proposition to accept. The logic of the argument of the infinite perfection of Mind, God, and the spiritual creation, seems clear to most of us, but the equally logical and correlated argument of the nothingness and unreality of the material creation causes us more trouble. This point will become clearer as our spiritual perception enlarges, for in the proportion that the spiritual creation becomes real to us, the material loses its reality.

I have often been asked the question, "If this mortal material body is not of God—if it isn't so—what am I going to do about it? What am I going to think about it?"

Well, don't try to get rid of it all at once. Be content for today to get rid of the very worst things you know about it—those things that are so obviously unlike God, so contrary to the thought of His perfection, that you can detect, no matter how small your understanding, that they are not His making, and hence have never been made. As you deny their reality and assert what you know to be God's perfection, these conditions will disappear; and though you will still have a material body to deal with, it will be a better body, made better and stronger through the application of God's law of health.

It is the putting off of the old man, and the putting on of the new, through the application of the teachings of Christian Science, that constitutes the healing. The thoughts of sickness and sin are ruled out of human consciousness by the understanding and declaration of the perfection of that which God has made.

There are those who feel that it is almost a sacrifice to dispose of material man as just a counterfeit of the spiritual, perfect man. This material man is so wonderfully made, they say, how can it be possible that God did not make him? They feel that it is dishonoring God to disown the material man as His product.

Material man does seem to be wonderfully made, but you will remember that in the many "better baby" shows that have been prevalent about the country, though the best and most perfect babies are entered, it is sometimes impossible to find one that is one hundred per cent perfect. If material man is the creation of God, it is not honoring God very much to have to admit that more than ninety-five per cent of His creation could be vastly improved upon in the very beginning.

Others maintain that God made man perfect, and gave him his own free will to do good or evil, but man chose to do evil, and the evil brought sickness and other troubles upon him; or that man unknowingly transgressed God's laws, but that God is in no way responsible,

because had man chosen to do right all would have been well.

Suppose an architect put up a building and it fell down; would that be the fault of the building? Would you blame the building? It would only fall because it was so constructed that it could fall. Obviously, if God made man so he could fall and he fell it would be God's fault, not man's.

It should be stated also, that those who hold to the belief that God made man free to do either good or evil are holding a belief that is directly contrary to Jesus' teaching. He said: "I came down will, but the will of him that sent me." "I can of mine own self do nothing." "Whosoever shall do the will of God, the same is my brother, and my sister, and mother." The Master everywhere taught that to do God's will constituted freedom; for he told those who believed on him that if they continued in his word its truth would make them free; and that whosoever committed sin was in bondage to sin. It has ever been bondage to be sick and sinful, and to stop being sick and sinful is to enter into "the glorious liberty of the children of God."

When the Master first appeared in the synagogue, he announced his mission by appropriating to himself that passage from the sixtieth chapter of Isaiah which reads, "The Spirit of the Lord God is upon me; because the Lord hath anointed me to preach good tidings unto the meek; he hath sent me to bind up the brokenhearted, to proclaim liberty to the captives, and the opening of the prison to them that are bound." He who continually maintained that he could only do God's will and not his own, came proclaiming liberty. Man was never given his free will to do right or wrong, for it has always been liberty to do good and bondage to do evil.

There are those who mistakenly maintain that Christian Science denies the divinity of the Christ. The divinity of the Christ is an unassailable fact which is accepted and taught from cover to cover of the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mrs. Eddy; but if we are to accept the teaching of the Bible on the subject of the Christ, we shall have to admit that the Christ had been manifested in some degree at various times both before and since the full and perfect manifestation of the Christ which Jesus presented.

Isaiah had some consciousness of the Christ when he said, "The Spirit of the Lord God is upon me," for if he had not, Jesus could not have appropriated his exact words in stating his mission as the Christ. Abraham saw the Christ in some measure when he became conscious of the "King of righteousness," of whom the Bible says that he had "neither beginning of days, nor end of life; but made like unto the Son of God." And we are told that Moses and the children of Israel were conscious of the Christ, for the Bible says, they "did all eat the same spiritual meat; and did all drink the same spiritual drink; for they drank of that spiritual Rock that followed them; and that Rock was Christ." On page 333 of Science and Health Mrs. Eddy says, "Abraham, Jacob, Moses, and the prophets caught glorious glimpses of the Messiah, or Christ, which baptized these seers in the divine nature, the essence of Love,"—a

fact which may be verified by careful study of the Scriptures.

It is certain that Jesus' followers knew they were manifesting Christ in some degree or Paul would not have said to the Corinthians, "We have the mind of Christ"; nor would he have enjoined the Philippians let that Mind be in them "which also is in Christ Jesus." In addition his Paul says, "The Spirit itself bears witness with the spirit, that we are children of God; and if children, then heirs; heirs of God, and joint heirs with Christ." If we are joint heirs with Christ we shall certainly manifest in some measure the Mind Christ, which Jesus manifested in his healing sickness and destroying sin.

Our thought of gratitude to Master for all that he has done us in showing us "the way," grows greater day by day as our growth understanding enables us to see more clearly the full significance to us of life and work. This gratitude never fully expressed, except as continually expressed.

It is but natural that we should feel a sense of deep gratitude to Eddy also, because it is through teaching that we are experiencing that which the Master taught, but which we had not experienced. Those have not experienced the blessing which Christian Science brings of understanding the expressions of gratitude toward Mrs. Eddy, and some object to her. Gratitude is opposite of selfishness, and who give to one does not take from her. There is room in the thought of the Christian Scientist for the expression of gratitude wherever grace is due.

The Christian Scientist prays with out ceasing. He is not giving prayer audibly, because he is praying to man, but to God, who hears in secret but rewards him openly.

Mrs. Eddy says, "The habit of prayer is to be always good in his prayer." (Science and Health 4.) Our idea of goodness needs to be enlarged to include all good qualities. It should include health and as well as holiness. If God's is not available in everything, how can we know how much he may be upon anything? If God will not use from a sick body or a sickness, how can we be sure that He save us from sin? Men are precisely that Christian Science may be successfully applied to every humanity,

to every human problem. It enables the business man to be a blessing to the entire community which he serves, and he in turn is blessed with a freedom from worry and a consciousness of peace and success. Christian Science has brought many prosperous business conditions where before there had been business failures, just as it has in so many instances brought healthful conditions of the body where before there had been medical failures.

To get an understanding of divine Love requires nothing but the belief that the infinite Principle may be understood and a desire to understand it. He who with an honest motive makes an effort to know the letter of Christian Science will receive the Spirit, and there is no human difficulty which divine Love cannot heal.

### A Texas Wonder

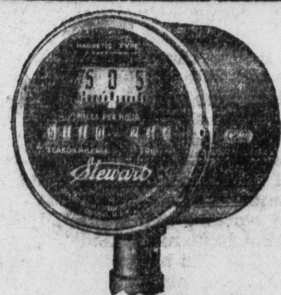

—The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for testimonials from this and other states. Dr. E. W. Hall, 2296 Olive street, St. Louis, Mo. Sold by druggists.—Advertisement.

### STOP THE FIRST COLD

A cold does not get well of itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hacking coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing antiseptic balsams in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your Druggist's, 50c.
